Language in Prop 30 relevant to community college funding (extracted by Nick Strobel):

In section 2 findings (page 80 bottom left column to top right column):

(h) To ensure these funds go where the voters intend, they are put in special accounts that the Legislature cannot touch. None of these new revenues can be spent on state bureaucracy or administrative costs.

(i) These funds will be subject to an independent audit every year to ensure they are spent only for schools and public safety. Elected officials will be subject to prosecution and criminal penalties if they misuse the funds.

On page 82 bottom right column tells how much of the extra revenue from the tax increase goes to Community colleges (I lose track of which section, sub-section, paragraph, etc. this lies)

(A) Eleven percent of the moneys appropriated pursuant to this paragraph shall be allocated quarterly by the Board of Governors of the California Community Colleges to community college districts to provide general purpose funding to community college districts in proportion to the amounts determined pursuant to Section 84750.5 of the Education Code, as that code section read upon voter approval of this section. The allocations calculated pursuant to this subparagraph shall be offset by the amounts specified in subdivisions (a), (c), and (d) of Section 84751 of the Education Code, as that section read upon voter approval of this section, that are in excess of the amounts calculated pursuant to Section 84750.5 of the Education Code, as that section read upon voter approval of this section, provided that no community college district shall receive less than one hundred dollars (\$100) per full time equivalent student.

Finally, on page 83 bottom left column we have the audit piece:

(6) A community college district, county office of education, school district, or charter school shall have sole authority to determine how the moneys received from the Education Protection Account are spent in the school or schools within its jurisdiction, provided, however, that the appropriate governing board or body shall make these spending determinations in open session of a public meeting of the governing board or body and shall not use any of the funds from the Education Protection Account for salaries or benefits of administrators or any other administrative costs. Each community college district, county office of education, school district, and charter school shall annually publish on its Internet Web site an accounting of how much money was received from the Education Protection Account and how that money was spent.

(7) The annual independent financial and compliance audit required of community college districts, county offices of education, school districts, and charter schools shall, in addition to all other requirements of law, ascertain and verify whether the funds provided from the Education Protection Account have been properly disbursed and expended as required by this section. Expenses incurred by those entities to comply with the additional audit requirement of this section may be paid with funding from the Education Protection Account, and shall not be considered administrative costs for purposes of this section.
