

SUSPECTED ABUSE

ALL BC FACULTY AND STAFF

The items below are to be used as a reference only. If you have a student who approaches you in need of help or you are concerned that they may be in an abusive relationship. Feel free to utilize the below listed resources.

Start by asking the student if they are safe, right now? If on campus, call public safety and keep the student with you. You can also walk them over to the Student Health Center and they can assist the student with appropriate referrals. It is best to call first so the health center will be prepared to welcome the student on a confidential basis. Otherwise, the center may not see the student right away and may ask questions which could discourage the student. Official policy is in the works from the district.

This document is for reference only and does not serve in any legal or binding capacity.
