

PDC –Senate Report

Feb 7/18

Opening week activities

Opening week was from Jan 8-12 with most workshops occurring on Monday –Wednesday. The welcome was Thursday morning followed by lunch and some afternoon sessions. It is important to remember that while we were able to plan many sessions, our week is structured around the president’s decision for opening day and major planning sessions; such as pathways. So we understand that sessions were not offered every morning, but we work to provide as many sessions as possible during the hours available.

Sessions: 54 sessions

Number of individual attendees: 470 different individuals attending at least one session.

Total attendees: 758 attendance log-ins, without the adjunct faculty orientation

Total number with adjunct orientation: 828 (70 who attended the adjunct orientation).

Fall 2017

We had 52 sessions total (down from 58, as we had 6 canceled workshops), with 41 unduplicated. We had 314 individual logins/sign-ins and approximately 700 total logins/sign-ins.

FALL 2017	Spring 2018
Sessions: 52	Sessions 54
Individual Attendees 314	I.A. 470
Total Number: 700	Total Number: 758

The spring numbers are based on registration and have not been verified. Some people may have registered, but did not attend the actual session
