Collective Bargaining Agreement Article 1 Section C, sub-section 12

**Note:** This procedure is **legally required**.

#### The academic calendar includes:

- The number of days that define an academic year is 175 days of instruction and evaluation
- Per the faculty collective bargaining agreement, the academic senates are delegated the right to settle
  the academic calendar for their colleges. Therefore, for determining the academic calendar begins with
  each College academic senate and incorporates review of the draft calendar by appropriate college and
  district committees with final approval by the Board of Trustees. Review and approval should
  commence at least two academic years prior to the calendar's activation.
- Holidays, which include:
  - New Year's Day (January 1)
  - o <u>Dr. Martin Luther King, Jr. Day (Third Monday in January)</u>
  - o <u>Lincoln Day (February 12 or see Note below)</u>
  - Washington Day (Third Monday in February)
  - Spring Recess
  - Memorial Day (Last Monday in May)
  - Independence Day (July 4)
  - <u>Labor Day (First Monday in September)</u>

- o <u>Veterans Day (November 11 or see Note below)</u>
- o <u>Thanksgiving Day</u> (Fourth Thursday in November)
- o Thanksgiving Recess (Fourth Friday in November)
- o Christmas Recess (December 24)
- o Christmas Day (December 25)
- Other Holidays The Board of Trustees may declare other days to be holidays and close the colleges and offices when good reason exists. (These holidays traditionally have been New Year's Eve day, the day after Thanksgiving, and Christmas Eve day.)

**Note:** Please refer to Education Code Section 79020 for laws regulating the scheduling of Lincoln Day, Veterans Day, and holidays that fall on weekends.

**NOTE:** The following procedure is **legally required**. Districts may insert local procedures for program and curriculum development, which may include or address procedures for new, added, provisional or experimental, reinstated and deleted courses and procedures for changes in course number, title, units, or hours. Procedures for each action should, as good practice, address:

#### Initiation, Review, Approval, Evaluation

- <u>Initiation of new or revised program and curriculum content is the purview of faculty through submission to the College Curriculum Committee. The faculty, acting through discipline areas with the academic divisions and through each college's Curriculum Committee as a subcommittee of their Academic Senate, shall be responsible for instructional program and course development.</u>
- Final recommendations for program additions and modifications from the College Curriculum Committee shall be recommended to the College Chief Instructional Officer who shall make a recommendation to the College President. The College President shall then submit a recommendation to the Chancellor for approval by the Board of Trustees. Once approved by Trustees, the content is submitted for State approval.

• <u>Program and curriculum additions and revisions are published in the College catalogs and Board of</u> Trustees meeting minutes.

<u>The District shall provide annual certification to the California Community Colleges Chancellor's Office pertaining</u> to the approval of credit courses and credit programs as required under Title 5 Sections 55100 and 55130.

#### **Credit Hour**

Title 5 states one credit hour of community college work (one unit of credit) shall require a minimum of 48 semester hours of total student work, which may include inside and/or outside-of-class hours. A course requiring 96 hours or more total student work shall provide at least 2 units of credit. Cooperative work experience courses shall adhere to the formula for credit hour calculations identified in Title 5 Section 55256.5. Credit for clock hour designated programs shall be awarded consistent with 34 Code of Federal Regulations Part 600.2.

**NOTE**: The following language is **legally required**. Districts should insert their locally developed policy defining the standards for credit hour calculations which must include the following:

KCCD course outlines of record target 54 hours of student involvement per unit of credit. The primary term length is 16 weeks in fall and spring. Courses are generally scheduled such that they exceed the in-class hours on the course outline of record by the minimal amount. At times, courses may be scheduled for fewer hours than listed on the course outline of record as long as they meet or exceed the 48-hour minimum stated in Title 5 Section 55002.5. Course outlines of record shall designate the number of units of lecture and/or laboratory with the in-class and outside-of-class hours based on the selected number of units. Credit hours for all courses may be awarded in increments of one unit, a half-unit, or less than a half-unit.

# Standard Formula (Relationship) for Hours and Units of Credit

Courses not classified as cooperative work experience use the following formula for calculating units of credit: divide the total of all student learning hours (lecture, laboratory, and/or outside-of-class hours) by 54, then round down to the nearest 0.5 units.

Expressed as an equation:

[Total Contact Hours + Outside-of-class Hours]

=

Units of Credit

The result of this calculation is then rounded down to the nearest 0.5 increment. For example, if a course contains 180 total student learning hours (36 lecture, 72 lab, and 72 outside-of-class hours), then the unit calculation is as follows:

$$36 + 72 + 72 = 180 = 3.33$$
, which is rounded down to 3 units of credit

**NOTE:** The following language is **legally required** in an effort to show good faith compliance with the applicable federal regulations

For purposes of federal financial aid eligibility, a "credit hour" shall be not less than:

- One hour of classroom or direct faculty instruction and a minimum of two hours of out of class student work each week for approximately [ 16 weeks for one semester or trimester hour of credit ], or the equivalent amount of work over a different amount of time; or
- At least an equivalent amount of work as required in the paragraph above, of this definition for other academic activities as established by the institution including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

No CCLC policy or procedure.

ACCJC Accreditation Standard II.A.15

**NOTE:** A procedure for discontinuance of career and technical programs is **legally required**. Procedures for discontinuance of other programs are **suggested as good practice**.

College procedures for program discontinuance shall include:

- Appropriate involvement of the faculty and Academic Senate in all processes;
- Academic Senate involvement requires consideration and action taken by the Academic Senate or appropriate Senate committee;
- Appropriate notice and involvement of the affected parties in all of the processes;
- A plan and schedule for implementing the program deletion;
- Consideration of job market and other related information for vocational and occupational programs;
- Rationale for the program deletion; and
- Consideration of the impact of the proposed deletion with evidentiary support.

The procedure for discontinuance of vocational or occupational programs should include:

- Process for reviewing such programs every two (2) years to ensure they
  - meet legal standards
  - meet a documented labor market demand
  - do not represent an unnecessary duplication of other training programs in the area
  - are of demonstrated effectiveness as measured by student employment and completion success of students

In addition to program discontinuance initiated by the College procedures, the College or District administration may also initiate the appropriate College procedures.

Final recommendations for program discontinuance shall be recommended to the College Chief Instructional Officer who shall make a recommendation to the College President. The College President shall then submit a recommendation to the Chancellor for approval by the Board of Trustees.

- Discontinued programs may also be deleted subject to review.
- Process for termination of program by the Board of Trustees if legal and other District standards are not met.

**NOTE:** This procedure is **legally required.** Local practice may be inserted here.

The philosophy and criteria for the associate degree and general education should address the considerations contained in the references listed above. These include, but are not limited to:

- <u>The programs of the District are consistent with the institutional mission. purposes.</u> demo graphics and economics of its community.
- The philosophy and criteria regarding the associate degree references the policy of the Board of Governors that the associate degree symbolizes a successful attempt to lead students through patterns of learning experiences designed to develop certain capabilities and insight, including:
  - the ability to think and communicate clearly and effectively orally and writing:
  - use mathematics:
  - understand the modes of inquiry of the major disciplines:
  - be aware of other cultures and times:
  - <u>achieve insights gained through experience in thinking about ethical problems; and to develop the capacity for self-understanding.</u>

The philosophy and criteria regarding general education references the policy of the Board of Governors that general education should lead to better self-understanding including:

- <u>General education is designed to introduce students to the variety of means through which people comprehend the modem world.</u>
- General education introduces the content and methodology of the major areas of knowledge and provides an opportunity for students to develop intellectual skills. information technology facility, affective and creative capabilities. social attitudes. and an appreciation for cultural

Education Code Section 66015. 7

**NOTE:** This procedure is **legally advised**. <del>optional:</del> AB 1342 amended Education Code to encourage districts to engage in international education as resources permit. Local practice may be *inserted*.

International education should encourage programs that support learning about other cultures. global issues. and the exchange of Californians and international students and scholars. such as:

- <u>Develop courses of study in as many fields as possible to increase students'</u> <u>understanding of global issues and cultural differences.</u>
- Offer courses in languages other than English to train students to communicate effectively in other cultures and to enhance their understanding of other nations' values.
- Provide opportunities for students in all majors to participate in study abroad programs to enrich their academic training, perspectives, and personal development.
- <u>Provide opportunities for domestic and international students to interact</u>
   <u>effectively and routinely share their views. perceptions. and experiences in educational settings.</u>
- <u>Develop innovative public educational forums and venues to explore global issues</u> and showcase world cultures.

#### For international students and scholars,

• Encourage the presence of qualified students from other countries with sufficient geographic diversity to inspire an appreciation for differences among cultures and a deeper understanding of the values and perspectives of other people.

- <u>Facilitate faculty exchange and collaborative partnership programs with institutions in other countries.</u>
- Initiate collaborative research undertakings to address issues of global significance,
- <u>Recruit and retain the world's best and brightest faculty to educate California's students as globally competent</u>

ACCJC Accreditation Standard I.C.7

**NOTE:** This procedure is **legally advised**. optional so long as there is a Board Policy in place which complies with Title 5 and the accreditation standard. Local practice may be inserted here to implement board policy, if necessary.

#### **General Principles**

Education in a democracy depends upon earnest and unceasing pursuit of truth and upon free and unrestricted communication of truth.

Academic freedom encompasses the right of instructors to discuss pertinent subjects within their field of professional competency in the classroom, consistent with course objectives, and for counselors, librarians and other academic employees to provide appropriate student services within their fields of professional competency and consistent with sound educational principles.

Based upon the principle of academic freedom, neither District officials nor outside individuals or groups may interfere with or censure an academic employee because of the employee's proper treatment of pertinent subjects, or provision of proper educational professional services to students.

Faculty members acknowledge that in the exercise of academic freedom they have a responsibility to be accurate and comprehensive in making reports, to be fair-minded in making interpretations and judgments, to respect the freedoms of other persons, to exclude irrelevant matters from classroom discussions and instructional exercises, and to make appropriate distinctions between statements made as faculty subject matter specialists and statements made as private citizens.

The District recognizes the fundamental right of the faculty member to be free from any censorship or restraint which might interfere with the faculty member's obligation to pursue truth and maintain his/her intellectual integrity in the performance of his/her teaching functions.

#### **Textbook Selection**

Each campus shall develop a procedure for the selection of textbooks that recognizes the basic right and duty of the faculty to be the primary agent in the process. Since students in most instances must purchase books, the procedure should take cognizance of the financial consideration that may be imposed upon the student.

#### **Public Forums**

In keeping with the philosophy of intellectual freedom and the responsibility of the Community College District for services to its community, public forums presenting speakers with varying points of view may be offered to the local community as part of the educational program.

All proposals for special programs and projects, involving requests for financial assistance from outside funding sources such as governmental agencies, foundations or special organizations, shall be presented to the Board of Trustees for approval prior to the submission of a formal application to such outside groups.

The recommendation of individual instructors and of instructor or advisory groups may be utilized in the selection of instructional resource material to the extent practical.

The library faculty as a part of the educational program, shall have the same freedoms guaranteed the teaching faculty and students and shall choose books and other resources based on the interest, information and potential for enlightenment of students. As far as practical, books and other resources will be selected to present all points of view concerning the issues of our times, international, national, and local. No books shall be excluded because of the actual or perceived race, color, religion, sex, sexual orientation, national origin, ethnic group identification, ancestry, marital status, age, physical or mental disability or the political or philosophical views of the writer.

Title 5 Sections 55200 et seq.;

34 Code of Federal Regulations Part 602.17 (U.S. Department of Education

<u>regulations on the Integrity of Federal Student Financial Aid Programs under Title IV</u> of the Higher Education Act of 1965, as amended);

ACCJC Accreditation Standard II.A.1

NOTE: This procedural language is legally required. in an effort to show good faith compliance with the applicable Federal Regulations if the District offers distance education or correspondence education. The Federal Regulations require districts to have processes in place to ensure that the student who registers in a distance education or correspondence education course or program is the same student who participates in and completes the program and receives academic credit. A district will meet this requirement if it follows the language below. Note that the Federal Regulations do not require districts to charge students fees associated with the verification of the student's identify. However, any district that does charge a fee, must notify the student in writing of the estimated amount of those fees in addition to a statement of the processes used to protect the student's privacy.

<u>Consistent with federal regulations pertaining to federal financial aid eligibility, the District must authenticate or verify that the student who registers in a distance education or</u>

correspondence education courses is the same student who participates in and completes the course or program and receives the academic credit. The District will provide to each student at the time of registration, a statement of the process in place to protect student privacy and estimated additional student charges associated with verification of student identity, if any.

<u>The Vice President of Instruction shall utilize one or more of these methods to authenticate or verify the student's identity:</u>

- Secure credentialing/login and password
- Other technologies and practices that are effective in verifying student identification

NOTE: Insert local practice here: the following approaches are specifically referenced in the federal regulation as appropriate. The key is to utilize an accepted procedure for verifying a student's identity.

- secure credentialing/login and password;
- proctored examinations; or
- new or other technologies and practices that are effective in verifying student identification.

The Vice President of Instruction shall establish procedures for providing a statement of the process in place to protect student privacy and estimated additional student charges associated with verification of student identity, if any, to each student at the time of registration.

**NOTE:** The following procedure is **legally required** if the District has implemented distance education courses. Local practice may be inserted, but it must include the following minimum requirements contained in Title 5.

<u>Definition:</u> Distance education means instruction in which the instructor and student are separated bytime or distance and interact through the assistance of technology.

<u>Course Approval:</u> Each proposed or existing course offered by distance education shall be reviewed and approved separately. Separate approval is mandatory if any portion of the instruction in a course or a course section is designed to be provided through distance education.

The review and approval of new and existing distance education courses shall follow the curriculum approval procedures outlined in AP 4020 Program and Curriculum Development.

Distance education courses shall be approved under the same conditions and criteria as all other courses.

<u>Certification: When approving distance education courses the Vice President of Instruction will certify the following:</u>

<u>Course Quality Standards: The same standards of course quality are applied to the distance education courses as are applied to in-person classes.</u>

<u>Course Quality Determinations: Determinations and judgments about the quality of the distance education course were made with the full involvement of the faculty and the curriculum committee approval procedures.</u>

Instructor Contact: Each section of the course that is delivered through distance education will include regular effective contact between instructor and students, as well as among students, either synchronously or asynchronously.

<u>Addendum to Course Outline:</u> An addendum to the official course outline of record shall be made if any portion of the instruction of a new or existing course is provided through distance education. The addendum must be approved according to the District's

<u>curriculum approval procedures. The addendum must address the following:</u>

- How course outcomes will be achieved in a distance education mode:
- <u>How the portion of instruction delivered via distance education provides regular and effective contact between instructors and students; and</u>
- <u>How the portion of instruction delivered via distance education meets the requirements of the Americans with Disabilities Act (ADA) and Section 508 of the Rehabilitation Act of 1973.</u>

Education Code Section 76224; Title 5 Sections 55040, 55041, 55042, 55043, 55253, 56029, and 58161

**NOTE:** This procedure is **legally required.** Local practice may be inserted here, which must include the following:

Students may petition for approval to repeat courses identified as repeatable in the course description. Each course specifies the number of times it may be repeated. Requests may be granted on the following grounds:

- <u>Courses for which repetition is necessary to meet the major requirements of California State University (CSU) or University of California (UC) for completion Of a bachelor's degree:</u>
- intercollegiate athletics course and;
- <u>Intercollegiate academic or vocational competition courses. Such courses may be repeated no more than four times for semester courses or six times forquarter courses.</u>

Students may enroll in activity courses in physical education, visual arts, or performing arts. Such courses may not be repeated for more than (four semesters or six quarters). This limit applies even if the student receives a substandard grade or "W' during one or more enrollment or if a student petitions for repetition for repetition due to extenuating circumstances.

### [Insert local processes for petitioning for approval]

When a student repeats a course designated as repeatable to alleviate substandard academic work fa "D," "F," "FW," "NP," or "NC"), the previous grade and credit shall be disregarded in the computation of grade point averages. No more than two substandard grades may be alleviated.

When a student with a disability re peats a class, the previous grade and credit shall be disregarded in the computation of grade point averages.

Courses that are repeated shall be recorded on the student's permanent academic record using an appropriate symbol.

Annotating the permanent academic record shall be done in a manner that all work remains legible, insuring a true and complete academic history.

Nothing can conflict with Education Code Section 76224 pertaining to the finality of grades assigned by instructors, or with Title 5 or District procedures relating to retention and destruction of records.

NOTE: Inclusion of the following depends on District practice. The elements are suggested as good practice/optional.

If the District is claiming apportionment under Title 5 Section 58161. students may petition for approval to repeat up to a total of 3 times courses designated as repeatable, including courses in which substandard grades (less than "C," and including "FW," "NP," or "NC") were awarded in one or more enrollments. If the student is repeating the course to alleviate substandard academic work, the District may disregard the first two substandard grades if the student repeats the class two or more times. Students may also petition for approval to repeat up to a total of 3 times courses active participatory credit courses that are related in content, in physical education, visual arts, or performing acts, including courses in which substandard grades (less than "C," and including "FW," "NP," or "NC") were awarded in one or more enrollments.

### Each college must provide the following regarding petitioning for approval:

- A list of the specific courses or categories of courses. if any. which are exempt from course repetition.
- Requirements to repeat courses after a significant amount of time (36 months) or the District has established a recency prerequisite.
- An institute of higher learning established a recency requirement which the student will not be able to satisfy without repeating the course. A student may petition for repetition if less than 36 months have elapsed and the student provides documentation that the repetition is necessary for transfer.
- Provisions for repeating a course taken at another accredited college or university for which substandard academic performance is recorded.
- <u>Circumstances under which students may repeat courses in which a C or better grade was earned. Such course repetition requires a finding that extenuating or extraordinary circumstances exist which justify such repetition. Extraordinary circumstances are those which would justify the District providing the student a
  </u>

refund. Extenuating circumstances are verified cases of accidents, illness, or other circumstances beyond the control of the student. Grades awarded for courses repeated under these provisions may be included when calculating a student's grade point average.

- Limits on the number of times students may repeat a course.
- Students may not enroll in a course more than three times, except in limited circumstances, described below. Enrollments include any combination of withdrawals and repetitions.
- Students may repeat a cooperative work experience course pursuant to District
  policy any number of times as long as they do not exceed the limits on the
  number of units of cooperative work experience set forth in Title 5 Section
  55253(a).
- Students with disabilities can repeat a special class for students with disabilities any number of times when an individualized determination verifies that such repetition is required as a disability-related accommodation for the student for one of the reasons specified in Title 5 Section 56029. [NOTE: The District may allow the previous grade to be disregarded when computing the GPA each time the course is repeated. If the District determines to do so, include: The District may disregard previous grades in computing the student's GPA each time the course is repeated.]
- Students may repeat a course any number of times where it is required for a student to meet a legally mandated training requirement as a condition of continued paid or volunteer employment, regardless of whether the student recorded substandard work. [Insert local procedure for students to certify the course is legally mandated.]
- Students may petition to repeat a course needed for employment or licensing because of a significant change in the industry or licensure standards. Students may take these courses any number of times. [Insert policy to require students to certify the course is needed because of a significant change in the industry or licensure standards.]

- Courses for which repetition is necessary to meet the major requirements of California State University (CSU) or University of California (UC) for completion of a bachelor's degree:
- Intercollegiate athletics courses: and
- Intercollegiate academic or vocational competition courses. Such courses may be repeated no more than four times for semester courses or six times for quarter courses.

The District must identify and designate such repeatable courses in its catalog.

<u>Under special circumstances. students may re peat courses in which a C or better grade was earned.</u>

Students are allowed to repeat a course without petition when repetition is necessary to enable that student to meet a legally mandated training requirement as a condition of

volunteer or continued paid employment. Students can repeat such courses any number of times.

Students may petition to repeat a course as a result of a significant change in industry or licensure standards such that repetition of the course is necessary for the student's employment or licensure. Students can repeat such courses any number of times.

Students may enroll in activity courses in physical education, visual arts or performing arts. Such courses may not be repeated for more than **four semesters**. This limit

# AP 4228 Course Repetition - Significant Lapse of Time

# Reference:

Title 5 Section 55043

**NOTE**: This procedure is **legally advised**.

<u>Students may be permitted or required to repeat courses in which a "C" or better grade</u> was earned where there was a significant lapse of time of no less than 36 months since the grade was obtained and:

- The District has established a recency prerequisite for a course or program: or
- An institution of higher education to which a student wishes to transfer has
   established a recency requirement that the student cannot satisfy without
   repeating the course.

When a student needs to repeat an active participatory experience course in physical education or visual or performing arts. or that is related in content due to a significant lapse of time. each repetition attempt will be counted toward the established repetition limits. However, if a student has already exhausted the number of permitted repetitions, then an additional repetition due to significant lapse of time may be permitted or required by the District.

**Note:** This procedure is **legally required.** The following language is provided as a sample. Local practice may be inserted, but must comply with the Education Code and Title 5 and address the following:

### **Changing Grades**

The instructor of the course shall determine the grade to be awarded to each student.

The determination of the student's grade by the instructor is final in the absence of mistake, fraud, bad faith, or incompetence. "Mistake" may include, but is not limited to, errors made by an instructor in calculating a student's grade, and clerical errors. "Fraud" may include, but is not limited to, inaccurate recording or change of a grade by any person who gains access to grade records without authorization.

The removal or change of an incorrect grade from a student's record shall only be done pursuant to Education Code Section 76232 or by an alternative method that ensures that each student shall be afforded an objective and reasonable review of the requested grade change.

If the procedure requires that a student first request a grade change from the instructor, provisions shall be made to allow another faculty member to substitute for the instructor if the student has filed a discrimination complaint, if the instructor is not available or where the District determines that it is possible that there may have been gross misconduct by the original instructor.

In the case of fraud, bad faith, or incompetence, the final determination concerning removal or change of grade will be made by the designate position.

<u>In all cases, the instructor who first awarded the grade will be given written notice of</u> the change.

## Security of Grade Records

The District shall implement security measures for student records that assure no person may obtain access to student grade records without proper authorization. These measures shall be installed as pad of any computerized grade data storage system.

The measures implemented by the District shall include, but not necessarily be limited to, password protection for all student grade data bases, locking mechanisms for computer stations from which student grade data bases can be viewed, and strict limits on the number of persons who are authorized to change student grades.

Persons authorized to change grades shall be designated by the **Director of**Admissions and Records. No more than five District employees may be authorized to change student grades. Only regular full-time employees of the District may be authorized to change grades. Student workers shall not have access to grade records, and student workers may not change grades at any time.

Any person who discovers that grades have been changed by someone other than the persons authorized to do so shall notify the **Director of Admissions and Records** immediately. The **Director of Admissions and Records** shall immediately take steps to lock the grade storage system entirely while an investigation is conducted.

If any student's grade record is found to have been changed without proper authorization, the District will notify 1) the student; 2) the instructor who originally awarded the grade; 3) any educational institution to which the student has transferred; 4) the accreditation agency; and 5) appropriate local law enforcement authorities.

Whenever a grade is changed for any reason, corrected transcripts will be sent to any educational institution to which a student has transferred.

Any student or employee who is found to have gained access to grade recording systems without proper authorization, or who is found to have changed any grade without proper authority to do so, shall be subject to discipline in accordance with District policies and procedures.

Any person who is found to have gained access to grade recording systems without proper authorization, or who is found to have changed any grade without proper authority to do so, shall be reported to the appropriate law enforcement agency having jurisdiction over the college where the incident occurred.

**NOTE:** The District may insert procedures related to processes for seeking grade changes, time limits, if any, and appeals to the [CEO]. Suggested procedures for doing so are contained in AP 5530 titledStudent Grievance Procedures.

Courses may be offered in either or both of the following categories:

- Courses in which all students are evaluated on a "pass-no pass" basis.
- Courses in which each student may elect on registration, or within time limit established by District, to take the course on a "pass-no pass" basis.

A student electing to be evaluated on the "pass-no pass" basis will receive both course credit and unit credit upon satisfactory completion of the course. In computing a student's grade-point average, grades of "pass-no pass" are omitted.

A pass grade is granted for performance that is equivalent to the letter grade of "C" or better. A student who fails to perform satisfactorily will be assigned a "no pass" grade.

The student is held responsible for all assignments and examinations required in the course. The standards of evaluation are identical for all students in the course.

- <u>Achievement of a satisfactory score on a high-level International Baccalaureate</u> (IB) examination
- <u>Achievement of a satisfactory score on the College Level Examination</u> <u>Program (CLEP)</u>
- Evaluation of Joint Service Transcripts (JST)
- <u>Achievement of an examination administered by other agencies approved by</u> the district
- Evaluation of industry-recognized credential documentation
- <u>Evaluation of student-created portfolios</u>
- <u>Satisfactory completion of an institutional examination, known as Credit by Examination, administered by the college in lieu of completion of an active course listed in the current college catalog</u>

## <u>Determination of Eligibility for Credit for Prior Learning</u>

- The student must be in good standing in the district
- The student must have previously earned credit or noncredit from the district

- or be currently registered in the district
- Current students must have an education plan on file
- The course is listed in the current college catalog
- The student is not currently enrolled in the course to be challenged
- Credit by Examination: The student is registered in the district and not currently enrolled in nor received credit for a more advanced course in the same subject (may be waived by department) Credits acquired by examination are not applicable to meeting of such unit load requirements as Selective Service deferment. Veterans. or Social Security benefits. Credits acquired by examination shall not be counted in determining the 12 semester hours of credit in residence required for an associate's degree.

## **Prior Learning Assessment Grading Policy**

- Grading shall be according to the regular grading system in accordance with AP 4C4A Procedure on Grades
- Students shall be offered a "Pass/No Pass" option, in accordance with AP 4C4A the Procedure on Grades Pass/No Pass Grading Option, if that option is ordinarily available for the course
- Students shall be given the opportunity to accept, decline, or appeal the grade assigned by the faculty, and in cases of Credit by Examination, pursuant to AP 4C4A the Procedure on Grades and AP 4C4C the Procedure on Grade Changes

### <u>International Baccalaureate</u>

Students requesting Credit for Prior Learning using International Baccalaureate shall receive credit for completing a satisfactory score on a district approved high-level International Baccalaureate (IB) examination under the following circumstances:

- Official IB transcripts must be on file in the Records Office
- <u>The student achieved a minimum acceptable score on the IB</u> <u>examinationa recommended by the district's IB equivalency guide</u>

# **College Level Examination Program**

Students requesting Credit for Prior Learning using the College Level Examination

Program shall receive credit for completing a satisfactory score on a district-approved

College Level Examination Program (CLEP) under the following circumstances:

- Official CLEP transcripts must be on file in the Records Office
- <u>The student achieved a minimum acceptable score on the CLEP examination</u> as recommended by the district's CLEP Equivalency Guide

# **Credit for Military Service/Training**

Students interested in Credit for Prior Learning using Joint Service Transcripts shall receive credit as recommended by the American Council on Education (ACE) Directory and approved by the appropriate discipline faculty of the college under the following circumstances:

- <u>The student shall complete the Credit for Prior Learning</u> assessment petition available in the Counseling or Records Office
- Official transcripts must be on file in the Records Office. These may include Joint Services Transcript (JST), Sailor/Marine American
   Council on Education Registry Transcript (SMART), Army and American
   Council on Education Registry Transcript Service (AARTS), Community
   College of the Air Force (CCAF), Coast Guard Institute (CGI),
   DANTES/USAFI, Defense Language Institute Foreign Language

   Examinee Results, DA Form 330 Language Proficiency Questionnaire, or verified copies of DD214 or DD295 military records.
  - <u>Credit course equivalency shall be determined by the faculty of the appropriate discipline</u>

### **Industry Recognized Credentials**

Students interested in Credit for Prior Learning using industry recognized credential(s) shall receive credit as recommended by the appropriate department chair or faculty designee:

- <u>The student shall complete the Credit for Prior Learning assessment petition available in the Counseling or Records office</u>
- <u>Enrollment services shall grant credit for industry recognized credential(s)</u>
   <u>that have already been evaluated and approved by the appropriate</u>
   Department chair or faculty designee
- If an industry recognized credential(s) has not yet been evaluated and approved by the appropriate faculty:
  - The student meets with the department chair or faculty designee to receive further instructions for industry recognized credential(s) assessment
  - The student submits all industry recognized credential documents to the department chair or faculty designee for assessment of prior learning
  - If the department chair or faculty designee determine the industry certification adequately measures mastery of the course content as set forth in the Course Outline of Record, the appropriate faculty shall sign the petition with the recorded grade, attach the industry recognized

<u>credential(s), and forward the completed petition and supporting</u> <u>documents to the Records Office to be kept on file and recorded on the</u> <u>student transcript</u>

# **Credit by Examination from Within the District**

The Department chair or faculty designee shall determine whether or not a student requesting Credit by Examination is sufficiently prepared to attempt credit by examination after consulting with the student.

The Petition for Credit by Examination must be completed prior to the end of the current semester or session.

The District will award college course credit for successful completion of a District examination administered by the appropriate departmental faculty under the following circumstances:

- <u>Achievement of a grade that qualifies for Credit by Examination through</u> the Career and Technical Education (GTE) Transitions program
- <u>Credit by satisfactory completion of an examination administered by the District in lieu of completion of a course listed in a KCCD College Catalog.</u>

#### AP 4240 Academic Renewal

#### Reference:

Title 5 Section 55046

**Note:** This procedure is **legally required.** Local practice may be inserted but should comply with the following:

Students may petition to have their academic record reviewed for academic renewal of substandard academic performance under the following conditions:

- Students must have achieved a grade point average of at least 2.5 in 18 units, and
- At least **2** years must have elapsed from the time the course work to be removed was completed.

<u>Up to **20** units of course work may be eliminated from consideration in the cumulative grade point average.</u>

Specific courses and/or categories of courses that are exempt from academic renewal must be described. Academic renewal actions are irreversible. When academic renewal procedures permit previously recorded substandard coursework to be disregarded in the computation of a student's grade point average, the student's permanent academic record should contain an accurate record of all coursework to ensure a complete academic history.

Academic renewal procedures may not conflict with the District's obligation to retain

and destroy records or with the instructor's ability to determine a student's final grade.

Note: Additional local procedures should be inserted, which must include:

The procedures to be followed by the student in requesting academic renewal. Designated authorities.

4C4D /4C4E Course Repetition and Academic Renewal

- 1. A course may be repeated once for a substandard grade without petition under the provisions of this corresponding policy. A course may be repeated more than once with petition under the provisions of the corresponding policy. Petitions for additional repeats are available in the Office of Admissions and Records.
  - 2. A course for which a grade of "A," "B," "C," "CR," or "P" was received may be repeated due to extenuating circumstances as defined in the corresponding policy. The petition for requesting permission to repeat the course is available in the Office of Admissions and Records and must be completed and approved prior to registration for the course. The petition requires documentation of the extenuating circumstances which must be included with the petition.
  - Courses in which students have received "W" grades may be repeated twice under the provisions of the corresponding policy. Petitions for additional repeats are available in the Office of Admissions and Records.

### AP 4250 Probation

#### **References:**

Title 5 Sections 55031- 55034

**NOTE:** This procedure is **legally required.** Local practice may be inserted, but should address the minimum requirements in the following examples.

Notification of Probation - Each student is entitled to be notified of his/her academic difficulty and the availability of college support services to respond to the academic difficulty before the student is dismissed. Notification will consist, at a minimum, of the following: At the end of the semester in which the student's grade point average falls below 2.0 in all units attempted, a notice that the student is on probation shall be sent to the student informing him/her that he/she is on academic probation. "All units attempted" is defined as all units of credit for which the student is enrolled in at the community college that they attend.

If the percentage of a student's recorded entries of "W," "I," "NC," and "NP" reaches or exceeds 50% of all units in which a student has enrolled, the student shall be placed on progress probation.

At the end of the third semester on which the student is on academic or progress probation, a notice that the student is subject to dismissal will be sent to the student informing him/her that he/she is subject to dismissal.

<u>Probationary Letter</u> - The letter notifying the student of probation will cover, at a <u>minimum</u>, the significance of being on probation and description of the services <u>available</u>.

<u>Counseling for Probationary Students -</u> Each student on probation will be provided counseling and guidance service, including regulation of the student's program as determined by the counseling office of each campus. A student on academic or progress probation may be limited by the College to specified courses and the number of units that may be attempted.

A student who is on academic probation and earns a semester grade point average of 2.0 or better shall not be dismissed as long as this minimum semester grade point average is maintained.

A student on progress probation because of an excess of units for which entries of "W," "I," and "NC" are recorded shall be removed from probation when the percentage of units in this category drops below fifty percent (50%).

### AP 4255 Dismissal and Readmission

Title 5 Sections 55033 and 55034

**Note:** This procedure is **legally required.** Local practice may be inserted, but should address the minimum requirements in the following examples.

Standards for Dismissal: A student who is on academic probation shall be subject to dismissal if the student has earned a cumulative grade point average of less than 1.0 [Section 55033 subdivision (c)(1) permits the District to establish a minimum cumulative grade point average higher than 1.0 [in all units attempted in each of three consecutives semesters [Section 55033 subdivision (c)(3) permit the District to establish a minimum of fewer than three consecutive semesters]. A student who has been placed on probation shall be subject to dismissal if the percentage of units in which the student has been enrolled for which entries of "W," "I," "NC," and "NP" are recorded in at least three consecutive semesters (five consecutive quarters) reaches or exceeds twenty-five percent (25%). [Section 55033 subdivision (c)(2) permits the District to establish a minimum

percentage of units of less than fifty percent (50%).]

<u>Dismissal Letter:</u> The letter notifying the student that the student is subject to dismissal will cover, at a minimum. reference to this procedure, explanation of what dismissal means, procedure for reinstatement, and procedure to appeal the dismissal.

<u>Appeal of Dismissal:</u> The student has the right to appeal a proposed dismissal action if the student feels that facts exist that warrant an exception to the dismissal action. The student must file the written petition of appeal Counseling and Advising Center within 10 business days before the new semester begins. If the student fails to file a written petition within the 10 business days, the student waives all future rights to appeal the dismissal action. It is the student's responsibility to indicate on the petition a clear statement of the grounds on which continued enrollment should be granted and to provide evidence supporting the reasons. Petitions will be reviewed by the program manager of the Probation Program

The student will be continued on probation until the program manager decides on the student's appeal.

The <u>decision</u> of the <u>College Vice President designated for this responsibility</u> will be communicated to the student in writing

by the Vice President. The Vice President will notify the student of its action within 10 business days of receipt of the student's appeal. The student may appeal the

<u>decision of the Vice President in writing to a given designee within **10** working days of the date of notification of the decision. The decision of the **Vice President** is final.</u>

If the dismissal appeal is granted, the student will be continued on probation for an additional semester. At the end of the additional semester, the student's academic record will again be evaluated to determine whether the student may be removed from probation, should be dismissed, or should be continued on probation.

Note: The following standards are not legally required, but are suggested as good practice.

<u>Fall Dismissals:</u> Special circumstances exist for dismissals after the Fall semester due to the fact that students traditionally enroll before Fall grades are available. Subject to dismissal letters will be sent no later than a month informing students that:

- If they are enrolled in the Spring semester, they will be permitted to continue on probation. Dismissal status will be reevaluated at the end of the Spring semester.
- If they are not enrolled in the Spring semester, they have the right to appeal dismissal in accordance with the appeal process.

<u>Procedure for Fall Dismissal Appeals:</u> Appeals for students subject to dismissal as a result of the <u>fall grades must be filed following notification during the Spring semester. The following conditions apply:</u>

- <u>Students who are enrolled in the Spring semester will not be required to file an appeal but will be allowed to continue on probation and have their dismissal status reevaluated at the end of the spring semester.</u>
- <u>Students who have not enrolled in the Spring semester will be dismissed unless</u> an appeal is granted in accordance with procedures set above.

<u>Standards for Evaluating Appeals:</u> Dismissal appeals may be granted under the following <u>circumstances:</u>

- If the dismissal determination is based on the academic record for one semester in which the record does not reflect the student's usual level of performance due to accident, illness, or other circumstances beyond the control of the student. Verification should be submitted with the appeal.
- The student enrolls in a corrective program designed to assist him/her in improving academic skills, such as obtaining academic counseling, and/or limiting course load.
- When there is evidence of significant improvement in academic achievement.

<u>Re-Admission after Dismissal:</u> In considering whether or not students may be re- admitted after a dismissal and two semesters absence, the following criteria should be considered:

- <u>Documented extenuating circumstances (considered during appeal).</u>
- <u>Marked improvement between the semesters on which disqualification</u> <u>was based.</u>
- <u>Semesters on which disqualification was based were atypical of past</u> academic performance.
- <u>Formal or informal educational experiences since completion of semesters on</u> which disqualification was based.
- <u>Improved GPA as a result of grade changes, fulfillment of incomplete courses, or academic renewal.</u>
- A student who has been placed on academic probation for three (3) consecutive semesters shall be disqualified for admission to classes the following semester, unless during the last semester of enrollment, the student earned a grade point average of 2.0 or higher, in which case the student shall be placed on continued probation. For purposes of academic standing only, summer session is the equivalent of a semester. A student who is disqualified may be conditionally readmitted upon petition to the College President or designee following campus procedures.
- 4C68 A student who has been placed on progress probation for three (3) consecutive semesters shall be disqualified for admission to classes the following semester, unless during the last semester of enrollment, the percentage of units with entries of "W," "I," and "NC" was less than fifty percent (50%), in which case the student shall be placed on continued probation. For purposes of academic standing only, summer session is the equivalent of a semester. A student who is disqualified may be conditionally readmitted upon petition to the College President or designee following campus procedures.
- 4C6C For purposes of Policies the corresponding policies, above, semesters shall be considered consecutive on the basis of student enrollment (i.e., fall semester followed by a fall semester shall be considered consecutive regardless of the number of intervening semesters in which the student was not enrolled.)
  - a. Students who are disqualified as a result of progress probation, and whose cumulative course completion rate is between twenty-six percent (26%) and fifty percent (50%) may be admitted to any of the Colleges of the Kern Community College District, but under these circumstances this student will be limited to enrollment in seven units.
- 2. Students who are disqualified for a second (2nd) time will be disqualified for a specific time period of either one (1) semester or one (1) year, depending on the circumstances. For this level of disqualification students will have the right to appeal the decision to the College Vice President designated for this responsibility, but counselors/advisors are not authorized to override the disqualification. Readmission after this level of disqualification will also require approval of the College Vice President designated for this responsibility.

- 3. Disqualified students may be required to enroll in a class organized to meet the needs of students who have serious academic problems.
- 4. Students enrolled in a disqualified status will have strict holds placed on any change in class schedules, or registration for subsequent semesters. Disqualified students are required to have regular appointments with a counselor/advisor to discuss academic progress, plan for subsequent semesters, get approval for any change in class schedules, and to get approval for subsequent registration.
- 5. Students enrolled under the status of "disqualified" whose grade point average for the current term is at least 2.0, or whose course completion rate for that term exceeds fifty percent (50%), will be removed from the disqualified list and readmitted under continued probation.

# AP 4260 Prerequisites and Co-requisites

### **References:**

Title 5 Sections 55000 et seq.

NOTE: This procedure is **legally required.** Districts may insert their local practice here. The following example was developed by the California Community Colleges Chancellor's Office Task Force in conjunction with the State Academic Senate. Districts should consult with local counsel before deviating from this example.

Prerequisites, c o-requisites advisories, and limitations are necessary to ensure that students succeed in their coursework and have access to the courses they require. It is important to have prerequisites in place where they are a vital factor in maintaining academic standards. It is also necessary to ensure that prerequisites, co-requisites, advisories, and limitations do not constitute unjustifiable obstacles to student access and success. Therefore, to foster the appropriate balance between these two concerns, the Education Code requires that prerequisites, co-requisites, advisories, and limitations be established based solely on content review or content review with statistical validation.

1. Information in the Catalog and Schedule of Courses.

The college shall provide the following explanations both in the college catalog and in the schedule of courses:

- A. <u>Definitions of prerequisites. co-requisites, and limitations on enrollment including the differences among them and the specific prerequisites, co-requisites, and limitations on enrollment that have been established.</u>
- B. Procedures for a student to challenge prerequisites, co-requisites, and limitations on enrollment and circumstances under which a student is encouraged to make such a challenge. The information about challenges must include, at a minimum, the specific process including any deadline s. the various types of challenge that are established in law. and any additional types of challenge permitted by the college.

- C. <u>Definitions of advisories on recommended preparation, the right of a student to choose to take a course without meeting the advisory, and circumstances under which a student is encouraged to exercise that right.</u>
- D. <u>Definitions of contract course, co-requisite, noncredit basic skills course, non-degree-applicable basic skills courses, prerequisite and satisfactory grade.</u>

## 2. Challenge Process

- A. <u>Any student who does not meet a prerequisite or co-requisite or who is not permitted to enroll due to a limitation on enrollment but who provides satisfactory evidence may seek entry into the course as follows:</u>
- 1. If space is available in a course when a student files a challenge to the prerequisite or co-requisite, the District shall reserve a seat for the student and resolve the challenge within five (5) working days. If the challenge is upheld or the District fails to resolve the challenge within the five (5) working-day period, the student shall be allowed to enroll in the course.
- 2. <u>If no space is available in the course when a challenge is filed, the challenge shall be resolved prior to the beginning of registration for the next term and, if the challenge is upheld the student shall be permitted to enroll if space is available when the students register for that subsequent term.</u>

## B. Grounds for challenge shall include the following:

- 1. Those grounds for challenge specified in Title 5 Section 55201(f).
- 2. The student seeks to enroll and has not been allowed to enroll due to a limitation on enrollment established for a course that involves intercollegiate competition or public performance, or one or more of the courses for which enrollment has been limited to a cohort of students. The student shall be allowed to enroll in such a course if otherwise he or she would be delayed by a semester or more in attaining the degree or certificate specified in his or her educational plan.
- 3. <u>The student seeks to enroll in a course that has a prerequisite established</u> to protect health and safety, and the student demonstrates that he/she does not pose a threat to himself/herself or others.
- 4. The student has the obligation to provide satisfactory evidence that the challenge should be upheld. However, where facts essential to a determination of whether the student's challenge should be upheld are or ought to be in the college's own records, then the college has the obligation to produce that information.

### C. <u>Curriculum Review Process</u>

The curriculum review process shall at a minimum be in accordance with all of the following:

- 1. <u>Establish a curriculum committee and its membership in a manner that is mutually agreeable to the college administration and the academic senate.</u>
- <u>Establish prerequisites, co-requisites, and advisories on recommended preparation (advisories) only upon the recommendation of the academic</u>

- senate except that the academic senate may delegate this task to the curriculum committee without forfeiting its rights or responsibilities under Title 5 Sections 53200-53204 and within the limits set forth in Title 5 Section 55003. Certain limitations on enrollment must be established in the same manner.
- 3. <u>Establish prerequisites. co-requisites. advisories on recommended preparation. and limitations on enrollment only if:</u>
  - a. <u>The faculty in the discipline or. if the college has no faculty member in the discipline. the faculty in the department do all of the following:</u>
  - 1. Approve the course; and,
  - 2. <u>As a separate action, approve any prerequisite or co-requisite, only if:</u>
    - a. <u>The prerequisite or co-requisite is an appropriate and rational measure of a student's readiness to enter the course or program as demonstrated by a content review including, at a minimum, all of the following:</u>
      - i. <u>involvement of faculty with appropriate expertise:</u>
      - ii. consideration of course objectives set by relevant department(s). The curriculum review process should be done in a manner that is in accordance with accreditation standards.
      - iii. <u>be based on a detailed course syllabus and outline of record, tests, related instructional materials, course format, type and number of examinations, and grading criteria;</u>
      - iv. <u>specification of the body of knowledge and/or skills</u> <u>which are deemed necessary at entry and/or</u> <u>concurrent with enrollment;</u>
      - v. <u>identification and review of the prerequisite or corequisite which develops the body of knowledge and/or measures skills identified under iv.</u>
      - vi. <u>matching of the knowledge and skills in the targeted</u> <u>course (identified under iv.) and those developed or</u> <u>measured by the prerequisite or co-requisite (i.e., the course or assessment identified under v.) and</u>
      - vii. <u>maintain documentation that the above steps were taken.</u>
  - 3. <u>Approve any limitation on enrollment that is being established for an honors course or section, for a course that includes intercollegiate competition or public performance, or so that a cohort of students will be enrolled in two or more courses, and, in a separate action, specify which.</u>
  - 4. Approve that the course meets the academic standards required for degree applicable courses, non-degree applicable courses, non-credit courses, or community service respectively.
  - 5. Review the course outline to determine if a student would be highly unlikely to receive a satisfactory grade unless the student had

- knowledge or skills not taught in the course. If the student would need knowledge or skills not taught in the course itself then the course may be approved for degree applicable credit only if all requirements for establishing the appropriate prerequisite have been met accepting only approval by the curriculum committee.
- 6. Review the course outline to determine whether receiving a satisfactory grade is dependent on skills in communication or computation. If receiving a satisfactory grade is sufficiently dependent on such skills, then the course may be approved for degree applicable credit only if all requirements have been met for establishing a prerequisite or co-requisite of not less than eligibility for enrollment to a degree-applicable course in English or mathematics, respectively.
- b. A course which should have a prerequisite or co-requisite as provided in (5) or (6) but for which one or more of the requirements for establishing a prerequisite have not been met may only:
  - 1. <u>Be reviewed and approved pursuant to the standards for non-degree applicable credit, non-credit, or community service; or</u>
  - 2. <u>Be revised and reviewed as required to meet the criteria for establishing the necessary prerequisites or co-requisites.</u>
- C. <u>The curriculum committee also reviews the course and prerequisite in a manner that meets each of the requirements specified above.</u>
- d. If the District chooses to use content review as defined in Title 5 of the Code of California Regulations section 55000(c) to define prerequisites and corequisites in reading, written expression, or mathematics for courses that are degree applicable and are not in a sequence, it must adopt a plan consistent with Title 5 of the Code of California Regulations section 55003(c).
- 4. Program Review. As a regular part of the program review process or at least every six years, except that the prerequisites and co-requisites for vocational courses or programs shall be reviewed every two years, the college shall review each prerequisite, co-requisite, or advisory to establish that each is still supported by the faculty in the discipline or department and by the curriculum committee and is still in compliance with all other provisions of this policy and with the law. Any prerequisite or co-requisite that is still supported shall be reviewed promptly thereafter to assure that it is in compliance with all other provisions of this policy and with the law.
- 5. Implementing Prerequisites, Co-requisites, and Limitations on Enrollment. Implementation of prerequisites, co-requisites, and limitations on enrollment must be done in a consistent manner and not left exclusively to the classroom instructor. Every attempt shall be made to enforce all conditions a student must meet to be enrolled in the course through the registration process so that a student is not permitted to enroll unless he/she has met all the conditions or has met all except those for which he/she has a pending challenge or for which further information is needed before final determination is possible of whether the student has met the condition.

6. Instructor's Formal Agreement to Teach the Course as Described. Each college shall establish a procedure so that courses for which prerequisites or corequisites are established will be taught in accordance with the course outline, particularly those aspects of the course outline that are the basis for justifying the establishment of the prerequisite or co-requisite. The process shall be established by consulting collegially with the local academic senate and, if appropriate, the local bargaining unit.

## **Review of Individual Courses**

If the student's enrollment in a course or program is to be contingent on his or her having met the proposed prerequisite(s) or co-requisite(s), then such a prerequisite or co-requisite must be established as follows. If enrollment is not blocked, then what is being established is not a prerequisite or co-requisite but, rather, an advisory on recommended preparation and must be identified as such in the schedule and catalog. Establishing advisories does not require all the following steps.

## 1. Advisories on Recommended Preparation

The college may recommend that a student meet a standard of readiness at entry only if recommended by the faculty in the discipline or department and by the curriculum committee as provided in above. This process is required whether the college used to describe such recommendations in its catalog or schedule as "prerequisites, " or "recommended," or by any other term.

## 2. <u>Limitations on Enrollment</u>

The types of limitation on enrollment specified below may only be established through the curriculum review process by the discipline or department faculty and the curriculum committee specified above including the requirement to review them again at least every six years; for example, aspart of program review. The following requirements must also be met in order to establish these particular limitations on enrollment.

- A. <u>Performance Courses. The college may establish audition or try-out as a limitation on enrollment for courses that include public performance or intercollegiate competition such as but not limited to band, orchestra, theater, competitive speech, chorus, journalism, dance, and intercollegiate athletics provided that:</u>
  - For any certificate or associate degree requirement which can be met by taking this course, there is another course or courses which satisfy the same requirement; and
  - 2. The college includes in the course outline of record a list of each certificate or associate degree requirement that the course meets and of the other course or courses which meet the same requirement.

Limitations on enrollment established as provided for performance courses shall be reviewed during program review or at least every six years to determine whether the audition or try-out process is having a disproportionate impact on any historically under-represented group and, if so, a plan shall be

adopted to seek to remedy the disproportionate impact. If disproportionate impact has been found, the limitation on enrollment may not be printed in subsequent catalogs or schedules nor enforced in any subsequent term until such a plan has been endorsed by the department and the college administration and put into effect.

- B. Honors Courses. A limitation on enrollment for an honors course or an honors section of a course may be established if in addition to the review by the faculty in the discipline or department and by the curriculum committee as provided above, there is another section or another course or courses at the college which satisfy the same requirements. If the limitation is for an honors course and not only for an honors section, the college must also include in the course outline of record, a list of each certificate or associate degree requirement that the course meets and of the other course or courses which meet the same associate degree or certificate requirement.
- C. Blocks of Courses or Sections. Blocks of courses or blocks of sections of courses are two or more courses or sections for which enrollment is limited in order to create a cohort of students. Such a limitation on enrollment may be established if, in addition to review by the faculty in the discipline or department and by the curriculum committee as provided above, there is another section or another course or courses that satisfy the same requirement. If the cohort is created through limitations on enrollment in the courses rather than limitations on specific sections of courses, then the college must include in the course outline of record a list of each certificate or associate degree requirement that the course meets and of the other course or courses which satisfy the same associate degree or certificate requirement.

# **AP 4300 Field Trips and Excursions**

# **References:**

Government Code Section 11139.8; Title 5 Section 55220

**NOTE:** The following procedure is **legally advised.** Local practice may be inserted, which should address the following concepts.

NOTE: Government Code Section 11139.8 prohibits a state agency from requiring its employees, officers, or members to travel to, or approving a request for state funded or sponsored travel to, any state that, after June 26, 2015, has eliminated protections against discrimination on the basis of sexual orientation, gender identity, or gender expression. This prohibition also applies to any state that has enacted a law that authorizes or requires discrimination against same-sex couples or their family or on the basis of sexual orientation, gender identity, or gender expression, subject to certain exceptions. The California Community Colleges Chancellor's Office has indicated it will not approve requests from local community college districts to travel to a restricted state. The California Community Colleges Chancellor's Office has also opined that Government Code Section 11139.8 does not apply to local community college districts. However, California law has recognized local community college districts as state agencies for certain purposes, among those is the community college funding mechanism. Thus, districts should consult with legal counsel in implementing Government Code Section 11139.8.

The District may conduct field trips and excursions in connection with courses of instruction or college-related social, educational, cultural, athletic or musical activities to and from places in California, or any other state, the District of Columbia, or a foreign country for students. All field trips must be for purposes directly related to the curriculum of the college.

These purposes are generally defined as educational experiences which cannot be duplicated on campus and are directly related to course content.

The District shall engage instructors, supervisors, and other personnel as may be necessary for such excursions or field trips who desire to contribute their services over and above the normal period for which they are employed by the District.

The District shall, at the discretion of each College, transport students, instructors, supervisors or other personnel by use of District equipment, contract to provide transportation, or arrange transportation by the use of other equipment.

When District equipment is used, the District shall obtain liability insurance, and if travel is to and from a foreign country, the liability insurance shall be secured from a carrier licensed to transact insurance business in the foreign country.

## The District may pay expenses of instructors, chaperones and other personnel

participating in a field trip or excursion. Payment shall be by way of itemized reimbursement in a form prescribed by each College, The District may pay for expenses of students participating in a field trip or excursion with auxiliary, grant or categorical program funds if the funds are used consistently with the funding source.

No student shall be prevented from making a field trip or excursion which is integral to the completion of the course because of lack of sufficient funds. The District shall coordinate efforts of community services groups to provide funds for students in need of them.

All persons making a field trip or excursion shall be deemed to have waived all claims against the District for injury, accident, illness, or death occurring during or by reason of the field trip or excursion. All adults taking such trips and all parents or guardians of minor students shall sign a statement waiving such claims.

Offerings are established and maintained in civic, vocational, literacy, health, homemaking, technical and general education, including, but not limited to, classes in the fields of music, drama, art, handicraft, science, literature, nature study, nature contacting, aquatic sports and athletics.

Offerings are designed to provide instruction and to contribute to the physical, mental, moral, economic, or civic development of the individuals or groups enrolled in them.

Offerings are open for the admission of adults and of those minors as in the judgment of the governing board may profit.

General fund moneys are not expended to establish and maintain community service offerings.

### AP 4500 Student News Media

# **References:**

**Education Code Section 66301** 

**Note:** The following procedure is **legally advised.** The following procedure applies if the college has news media programs. These procedures are **optional**, but are **legally advised.** Districts should adapt the language to accurately describe their programs.

College news media are any news/feature publications issued under the name of the college, funded by the District, and produced by students as an integral part of instruction in journalism/communications. It may include, but is not limited to, student newspaper reporting, broadcast news journalism and internet news journalism. The term "editorial" refers to all content other than advertising.

<u>College news media, as laboratory publications of the journalism/communications</u> <u>curriculum, shall provide vehicles to train students for careers in mass communication. College</u> <u>news media shall also serve the entire college</u>

community by reporting the news, including college events and activities, providing a forum for comment and criticism, and encouraging free expression as guaranteed in the First Amendment to the Constitution of the United States.

College news media are valuable aids in establishing and maintaining an atmosphere of free and responsible discussion. College news media shall exercise editorial freedom in order to maintain their integrity as vehicles for free inquiry and free expression in the college community. At the same time, the editorial freedom of the college news media shall entail corollary responsibilities.

Each college newspaper or other news medium is published as a learning experience, offered under the journalism/communications. The editorial and advertising materials published in each news medium, including any opinions expressed, are the responsibility of the student staff. An editorial board should be formed for the news media involved. Under appropriate state and federal court decisions, these materials are free from prior restraint by virtue of the First Amendment to the United States Constitution. These procedures are adopted so as to encourage a responsible exercise of such freedom.

**Note:** Colleges are **legally advised** to establish grievance procedures that provide an avenue for complaints about news media content. They should include or address:

### Journalism Grievance Procedures

<u>Definition of a Grievance - A grievance is a complaint that alleges facts which. if true. would demonstrate a violation of the grievant's right to free inquiry, free speech, or fair treatment; contains allegations that appear to be substantially credible; and is not frivolous.</u>

Student grievances arising from the operation of laboratory publications of the journalism curriculum may be processed pursuant to Administrative Regulation 5530, Student Grievance Procedures.

**NOTE:** This procedure is **legally advised.** The following list includes criteria found in other sample administrative procedures. The District may choose to refer to other procedures or repeat criteria within this procedure. Insert local practice, which should address the following and be used as a guide in the preparation of agreements or contracts.

An instructional service agreement is an agreement between the District and public agencies or private organizations to provide college-level training for the agency's or organization's employees or members.

The District may claim apportionment classes given through instructional service agreements provided pursuant to Education Code and Title 5 requirements.

Colleges, prior to establishing a new career and technical education program, through the process defined in Administrative Regulation 4020, shall conduct a job market study of the labor market area and determine whether or not the results justify the proposed career and technical education program.

The College must have a written agreement with the public agency contractor stating the responsibilities of each party and that the College or District is responsible for the educational program conducted on site.

The agreement/contract contains procedures, terms and conditions relating to:

- enrollment period
- student enrollment fees
- the number of class hours sufficient to meet the stated performance objectives
- supervision and evaluation of students
- withdrawal of students prior to completion of a course or program
- cancellation and termination of the arrangement

<u>Instruction claimed for apportionment under the agreement/contract, shall be under the</u>

immediate supervision and control of an employee of **District** who has met the minimum qualifications for instruction.

Where the instructor is not a paid employee, **District** shall have a written agreement or contract with each instructor conducting instruction for which full-time employees are to be reported and stating that **District** has the primary right to control and direct the instructional activities of the instructor.

<u>District</u> shall list the minimum qualifications for instructors teaching these courses and that the qualifications are consistent with requirements in other similar courses given in the **District**.

The course must be held at facilities which are clearly identified as being open to the general public. Enrollment in the course must be open to any person who has been admitted to **District** and has met any applicable prerequisites. **District** policy on open enrollment must be published in the district catalog, schedule of classes, and any addenda to the schedule of classes, along with a description of the course and information about whether the course is offered for credit and is transferable.

<u>Course outlines of record for advanced public safety courses will not list as a prerequisite public safety employment or possession of a basic course diploma. Appropriate health</u>

<u>and safety prerequisites or enrollment limitations can include the requirement to pass a California</u>

<u>Department of Justice Live Scan or other additional requirements that comply</u>

### with the law.

Course outlines of record for advanced public safety courses should include a sufficiently detailed list of prerequisites that are directly related to the content of the advanced course so that all prospective students can be assessed for enrollment eligibility. Prerequisites may not be established or construed to prevent academically qualified persons not employed in public safety agencies from enrolling in and attending courses.

A student may request an evaluation of his/her previous experience and coursework to determine if it is equivalent to the listed requirements. A student found not to meet the prerequisite requirements may challenge the prerequisites through the district's prerequisite challenge process. The **District** must maintain documentation that demonstrates its processes for assessing student eligibility for enrollment were followed.

College publications shall inform students regarding the method by which they may seek an evaluation for equivalent enrollment eligibility for advanced public safety courses. College publications, including the course outline and syllabi, shall include a notification that approval of equivalent enrollment eligibility is not a guarantee that state regulatory or licensing agencies will also grant equivalency for licensure or employment purposes.

<u>Degree and certificate programs must have been approved by the California Community</u>

<u>Colleges Chancellor's Office and courses that make up the programs must be part of the approved programs, or District must have received delegated authority to approve those courses locally.</u>

The courses of instruction are specified in the agreement, the outlines of record for such courses and are approved by District curriculum committee as meeting Title 5 course standards, and the courses have been approved by the district board of trustees.

<u>Procedures used by District to assure that faculty teaching different sections of the same course, teach in a manner consistent with the approved outline of record for that course are applied to courses and faculty covered under the agreement and students are held to a comparable level of rigor.</u>

<u>Records of student attendance and achievement shall be maintained by District. Records will be open for review at all times by officials of the District and submitted on a schedule developed by the District.</u>

<u>It is agreed that both contractor and District shall insure that ancillary and support services are provided for the students.</u>

<u>District must certify that it does not receive full compensation for the direct education costs of the course from any public or private agency, individual or group.</u>

<u>District is responsible for obtaining certification verifying that the instructional activity to be conducted will not be fully funded by othersources.</u>

<u>District shall comply with the requirements of Title 5 Sections 55230-55232 concerning approval by</u> <u>adjoining high school or community college districts and use of non-district facilities, if classes are to be located outside the boundaries of District.</u>
