

# Assessment Report to Academic Senate

October 10, 2022 | Faith Bradham, Faculty Co-Chair

- Assessment's last meeting was October 7.
  - In this meeting, the committee had a discussion regarding learning outcomes for NC courses and programs: the committee questions whether NC course & program outcomes should be created with the same guidelines in mind that the committee recommends for regular for-credit courses and programs.
  - The committee has extended an invitation for the Curriculum Co-Chairs and the Articulation Officer to come speak with the committee as we debate this issue.
  - Additionally, we plan to research whether other California community colleges have guidelines for non-credit course and program learning outcomes.
