

# Safety Advisory Committee Report to Academic Senate

December 4<sup>th</sup>, 2024 (Committee Meeting Date November 13, 2024)

## Announcements:

- District Office support is working to alleviate the delays in the mass notification system observed during the Shakeout exercise on October 17<sup>th</sup>. See upcoming items for more information.

## Completed Items:

- None to report

## Upcoming Items:

- Campus Sworn Officers Update: The final report from the outside vendor is expected to be complete in early December.
- Emergency Response Procedures: Planning is underway for additional indoor and outdoor PA systems, and updated texting system for emergency mass notifications. This is needed to ensure the entire campus is covered. We received information that the notifications were not able to be heard in some bathrooms.
- We reviewed the plans where balls, (like the Target stores) bollards and gates will be placed on campus to further secure the campus from unwanted vehicular traffic. Onsite work will begin soon for installation of the gates built by BC welding students. Gates are expected to be completed in the Spring semester.
- Cameras (video only) will be installed in critical areas on campus like the cameras in the dining commons. Cameras on campus will start in the spring and are expected to be completed by 2026. The current camera cart(s) video is monitored in the dispatch office during staffed hours. After hours the camera vendor monitors the video and notifies College Safety of any issues. All camera videos are archived for retrieval.

Respectfully submitted,

Roy Allard, Faculty Co-Chair  
Joe Grubbs, Administrative Co-Chair  
Justin Kelly, Classified Co-Chair
