

Safety Advisory Committee Report to Academic Senate

February 12th, 2025 (Committee Meeting Date January 15, 2025)

Announcements:

- The BC campus is an open campus. If anyone sees ICE on campus, please report this to college safety or the president's office. They should not go into any classrooms but could go into common open areas like the dining commons.
- Campus gates were approved and will be going up very soon. These will be built by our welding department students led by Jeremy Statt.
- Campus Sworn Officers Update: The outside vendor provided the draft report in early January and the final is expected to be complete in mid-January. The report will be reviewed with the college president and then expected to be taken to the board of trustees in February.

Completed Items:

- Trouble tickets from the shakeout were addressed by Information Technology at the district office. Notifications were missed because users were not logged into their computers.

Upcoming Items:

- Campus Sworn Officers Update: See announcement above.
- Emergency Response Procedures: Planning is underway for additional indoor and outdoor PA systems, and updated texting system for emergency mass notifications. This is needed to ensure the entire campus, including bathrooms, are covered.
- Permanent campus wide cameras are planned to be up and running prior to the Fall 2025 semester.

Respectfully submitted,

Roy Allard, Faculty Co-Chair
Joe Grubbs, Administrative Co-Chair
Justin Kelly, Classified Co-Chair
