

# EODAC Faculty Co-Chair Report to the Academic Senate & College Council

April 9, 2025

## Ongoing Business

- Working on a proposal to address identified accessibility issues for our evening and night students.
- Arranging and having conversations with programs and departments leads to better understand what we, as a college, are doing to meet ACCJC DEIA standards & requirements.
- Developing a committee Standards & Expectations that if adopted will be applied in full beginning the fall semester of 2025. This would fix, amongst other issues, the frequent lack of quorum at committee meetings and ensure that the EODAC can fulfill its role as described in the committee's approved charge.

## Challenges

EODAC is experiencing severe meeting attendance issues which may or may not be unique to EODAC alone. While the committee meets regularly on the 1<sup>st</sup> and 3<sup>rd</sup> Fridays of the month, some meetings had to be converted into informal discussions as quorum was not met.

Respectfully Submitted,

Gilbert Ayuk
