

To Who it May Concern,

I am writing to affirm my intent to run for Student Activities Manager. My interest in the Activities Manager position is rooted in my passion for community and forging diplomatic ties within the different groups of Bakersfield College. As an activities manager, the skills I have already honed, such as communication, organization, and problem resolution, will supplement my role as a productive member of Bakersfield College's community in the activities manager position. Bakersfield College's student government is the system in which the student body's voices are heard and answered in a democratic process. I intend to serve my student body in creating events of collaboration and community.

Thank you

Amy Jayasena
