Capture every special moment in the lifelike quality it deserves—and have a great time doing it! With its included zoom lens, the new ultra-compact AF-S DX NIKKOR 18-55mm f/3.5-5.6G VR II, the D3300 is a small, easy to use HD-SLR. Capture beautiful 24.2-MP photos and 1080p Full HD videos with vibrant colors and softly blurred backgrounds, then share them instantly with your compatible smartphone and the optional WU-1a Wireless Adapter. Whether you're creating high-resolution panoramas, adding fun special effects or recording dazzling HD video with sound, the D3300 will bring you endless joy, excitement and memories—just like the special moments of your life.

### Creating beautiful photos and videos has never been more fun.

Life is full of surprising, joyful moments—moments worth remembering. The D3300 makes it fun and easy to preserve those moments in the lifelike beauty they deserve: stunning 24.2-megapixel photos and 1080p Full HD videos with tack-sharp details, vibrant colors and softly blurred backgrounds. With its included zoom lens, the new ultra-compact AF-S DX NIKKOR 18-55mm f/3.5-5.6G VR II, the D3300 is a small and light HD-SLR and easy to use, too. Like sharing photos? The D3300 photos can appear instantly on your compatible smartphone or tablet for easy sharing with the optional WU-1a Wireless Adapter\*! Whether you're creating high-resolution panoramas, adding artistic special effects or recording HD video with sound, the D3300 will bring you endless joy, excitement and memories—just like the special moments of your life.

### Beautiful memories made easy Create stunning lifelike photos and HD videos

Taking snapshots with a smartphone is convenient, but are those photos good enough for preserving precious moments? The D3300's new EXPPEED 4 lets you shoot at high speeds up to 5 frames per second, shoot in low light with high ISO sensitivity, create high-resolution panoramas and much more. Your 24.2-megapixel photos and 1080p Full HD videos will be so impressive, so rich with detail and color—so lifelike—they'll bring back the feelings of the moments they capture.

#### Use your smartphone with it

##### Share photos instantly with your compatible smartphone or tablet

Attach the optional WU-1a Wireless Adapter and marvel as the photos you take with the D3300 instantly appear on your compatible smartphone or tablet. Share your favorite shots without missing a beat—text them, email them, upload them to your favorite social networking sites—it's your choice! You can even use your compatible smartphone or tablet as a remote monitor for the D3300. See what the camera sees and fire the shutter, perfect for self-portraits and group photos that actually include you.

#### Take it everywhere

##### Compact, lightweight and reliable

The D3300 is a small and light HD-SLR camera even when paired with the included AF-S DX NIKKOR 18-55mm f/3.5-5.6G VR II lens, which has a new ultra-compact design. The combination is designed to fit comfortably in your hands, and all of the D3300's buttons and dials are positioned for convenient, efficient operation. You'll take the D3300 everywhere you go, which means you'll bring home all the beautiful memories of your activities.

#### Catch every moment

When the action starts, hold down the shutter button to capture every movement, expression and feeling at 5 frames per second—that's 5 beautiful photos for every second of action! You won't believe some of the moments you'll catch thanks to Nikon's new high-speed EXPEED 4 processing engine.

#### Impress with every shot

##### Spectacular panoramas, Guide Mode and fun Special Effects

Using the D3300 is super easy—and a blast. Can't get the whole scene into your frame? Turn on Easy Panorama Mode and pan across the scene—the D3300 will capture the entire view as a high-resolution panoramic image. It's that easy! Guide Mode gives step-by-step help when you need it (it's like having an expert at your side), and you can easily get creative with built-in Image Effects, filters and more. You even get to choose which color you want for your D3300—black, grey or red!

#### Focus on the details

The D3300's 11-point Autofocus System locks onto your subjects as soon as they enter the frame and stays with them until you catch the shot you want. Even fast-moving subjects are captured with tack-sharp precision. And when you're recording Full HD video, Full-time Autofocus keeps the focus where you want it.

#### Capture the sights and sounds

The D3300 doesn't only take great photos, it takes dazzling 1080p Full HD video with sound, too! Record smooth, ultra-sharp HD movies you can play back on your HDTV or upload to video sites. You can even apply those fun special effects for more creativity!

#### What's Included:

- D3300 Camera Body
- AF-S DX NIKKOR 18-55MM F/3.5-5.6G VR II Lens
- AF-S DX VR ZOOM-NIKKOR 55-200MM F/4-5.6G Lens

#### D3300 Package DVD

VicD

Location: Sun City, AZ  
 Date: October 6, 2015

**Model Number:** D3300 Kit

" The camera and lenses seem to be excellent, as advertised! However, the included "Training DVD" is mostly a joke. Half of it is just a sales pitch for other Nikon products/accessories. There are three brief sections on using A and S modes, taking movies, and bringing attention to your subject. But a "Nikon School Instructional DVD"? No way! "

#### Great picture quality but lacks a few key features

WINDRIVER

Location: UT  
 Date: September 30, 2015

**Pros:** compact image quality affordable dynamic range  
**Cons:** no autobracket few focus points

" I've had this camera a little over a year and have been very impressed with the image quality. Battery life has been better than the 700 shots per charge advertised; I recently took > 1400 shots on a single charge (I don't use live view so that may help). I haven't tried the wireless feature so I won't comment on that. It's a great camera for static subjects, but there are a couple large drawbacks for taking pictures of moving objects, especially fast moving objects like my son. There are only 11 autofocus points and I've found that I have to spend time recomposing and hunting or I get out-of-focus pictures a significant amount of the time with a moving subject (more pictures are still in focus than not, however). Similarly, this seems to be one of the only dslr or mirrorless cameras with no auto-bracketing. This isn't a big deal for photographing scenes that don't quickly change as it's pretty easy to change the exposure compensation manually, but again, with moving subjects it feels like a significant loss. I believe both these issues are fixed with one step up to the D5300/5500 camera (39 auto-focus points vs. 11), so you might consider moving up a step if things like auto-bracketing and more auto-focus points are likely to be important. "

**Low budget great DSLR but horrible wifi dongle**

GAChicago

Location: Chicago

Date: September 25, 2015

**Pros:** good camera good price good features**Cons:** horrible wi-fi features that don't really work**Model Number:** D3300

" When I purchased this camera, I was new to DSLR's. The several desirable and easy to learn features make it great for the novice. If you are not interested in wi-fi features this is a great camera. My problem is, I was, and I still am, interested in wi-fi features. The camera does not have wi-fi built in, but the Costco package comes with a manufacturer accessory dongle. It allows you to connect the camera to and control it from your mobile phone or tablet. I didn't use the camera much since I purchased it, but in the first couple months I started experiencing difficulties with the wi-fi device. For some reason it can't maintain its connection to my phone or tablet long enough to get anything done. I thought the problem was with my phone or tablet, but they both worked with the dongle at first and neither one works with it now. Additionally, although my phone and tablet are Android devices, they're made by different manufacturers. Literally the device connects and disconnects in a matter of a few seconds. This is such a HUGE dissapointment! Nikon should have never released these defective dongles. "

**Great value with quality**

LusciousNatalia

Location: Caldwell, NJ

Date: August 8, 2015

**Pros:** picture quality is extremely good, alot of funtions available**Cons:** so many functions need to read how to use**Model Number:** 3300

" This camera is definately a good buy for our family photos and events! We have been playing with all of the functions, which there are many, and it's amazing what this camera is capable of doing and we are still learning about. However, the problem is, if you never used a camera like this in the past, you definately will need to either watch a video or read a little info befor you start...little things like how to connect the lense. Once you get the hang of it, you really will love what you will get from this camera. It's definately worth the money. "
