

ACCREDITING COMMISSION FOR COMMUNITY AND JUNIOR COLLEGES
Western Association of Schools and Colleges

Accreditation Standards

(First Reading January 2014)

Introduction¹

The primary purpose of an ACCJC-accredited institution is to foster student learning and student achievement. An effective institution ensures that its resources, programs, and services, whenever, wherever, and however delivered, support student learning and achievement. The effective institution ensures academic quality and continuous improvement through ongoing assessment of learning and achievement and pursues institutional excellence and improvement through ongoing, integrated planning and evaluation.

There are four Standards that work together to define and promote student success, academic quality, and institutional excellence. The institutional mission provides the impetus for accomplishing student learning and achievement and other goals that the institution endeavors to attain. Acting with integrity, the institution provides the means for students to learn and achieve their goals, assesses how well learning is occurring, and strives to improve learning and achievement through ongoing, systematic, and integrated planning (Standard I). Student Learning Programs and Support Services facilitate the achievement of the institution's stated student learning outcomes (Standard II). Human, physical, technology, and financial resources enable these programs and services to function and improve (Standard III). Ethical and effective leadership throughout the organization guides the accomplishment of the mission and supports institutional effectiveness and improvement (Standard IV). Integrating the elements of the Standards gives institutions the means to develop a comprehensive assessment of academic quality, institutional integrity and effectiveness, and a path to continuous improvement. CW- Introduction.²

Standard I: Mission, Academic Quality, Institutional Effectiveness and Integrity

The institution demonstrates strong commitment to a mission that emphasizes student learning and student achievement. Using analysis of quantitative and qualitative data, the institution continuously and systematically evaluates, plans, implements, and improves the quality of its educational programs and services.
