

### Standard IVA -Closing the loop-College Council -April 2015

Standard IV focuses on leadership and governance; Section A has 7 subsections which are specific to the decision making roles and processes. Components of Section A directly apply to the work of College Council.

This section did not have any recommendations or improvement plans, so the focus was on providing evidence to support the subsections.

Most of the supporting evidence for each section was referenced to the committee web site (Program Review, Academic Senate, College Council, Curriculum and FCDC.) The Decision-Making Document (DMD) was referred to frequently, so it will be important that that it become the 'living document' with UPDATED links.

College Council feedback was requested specific to

- the location of evidence
- Comments to support the College being in compliance with the eligibility requirements.

Feedback was incorporated into the final report for this standard and was submitted to Kate in December. Upon submission of the final report, there doesn't appear to be any remaining work on the part of the College.

#### **Implication for College Council: Keep the DMD updated**

We are doing a good job on this standard.

WE ARE BC!

Respectfully Submitted,

Jennifer Johnson
