

Bakersfield College

2015 Scorecard Data

College Council

February 4, 2016

Overview

- The 2015 CCC Scorecard data tracked students who started in 2008 and finished outcomes in 2014 that means:
 - Greg Chamberlin was president
 - They started when the housing, economic and employment slump was at its peak
- It includes no students starting after that time and influenced by
 - Multiple Measures & New Testing Practices
 - Compressed & Accelerated Courses
 - Habits of Mind & MIH

Data on the Scorecard Report

Completion Data

- Data indicates trend for college but not for the state
- The trends for the entire state were downward – we predicted this looking at the data at the state level

Persistence data

- Basically flat and similar to statewide – nothing we can address now

30 Unit rate

- Basically flat and similar to statewide – nothing we can address now

BC Remedial 6-year Rates

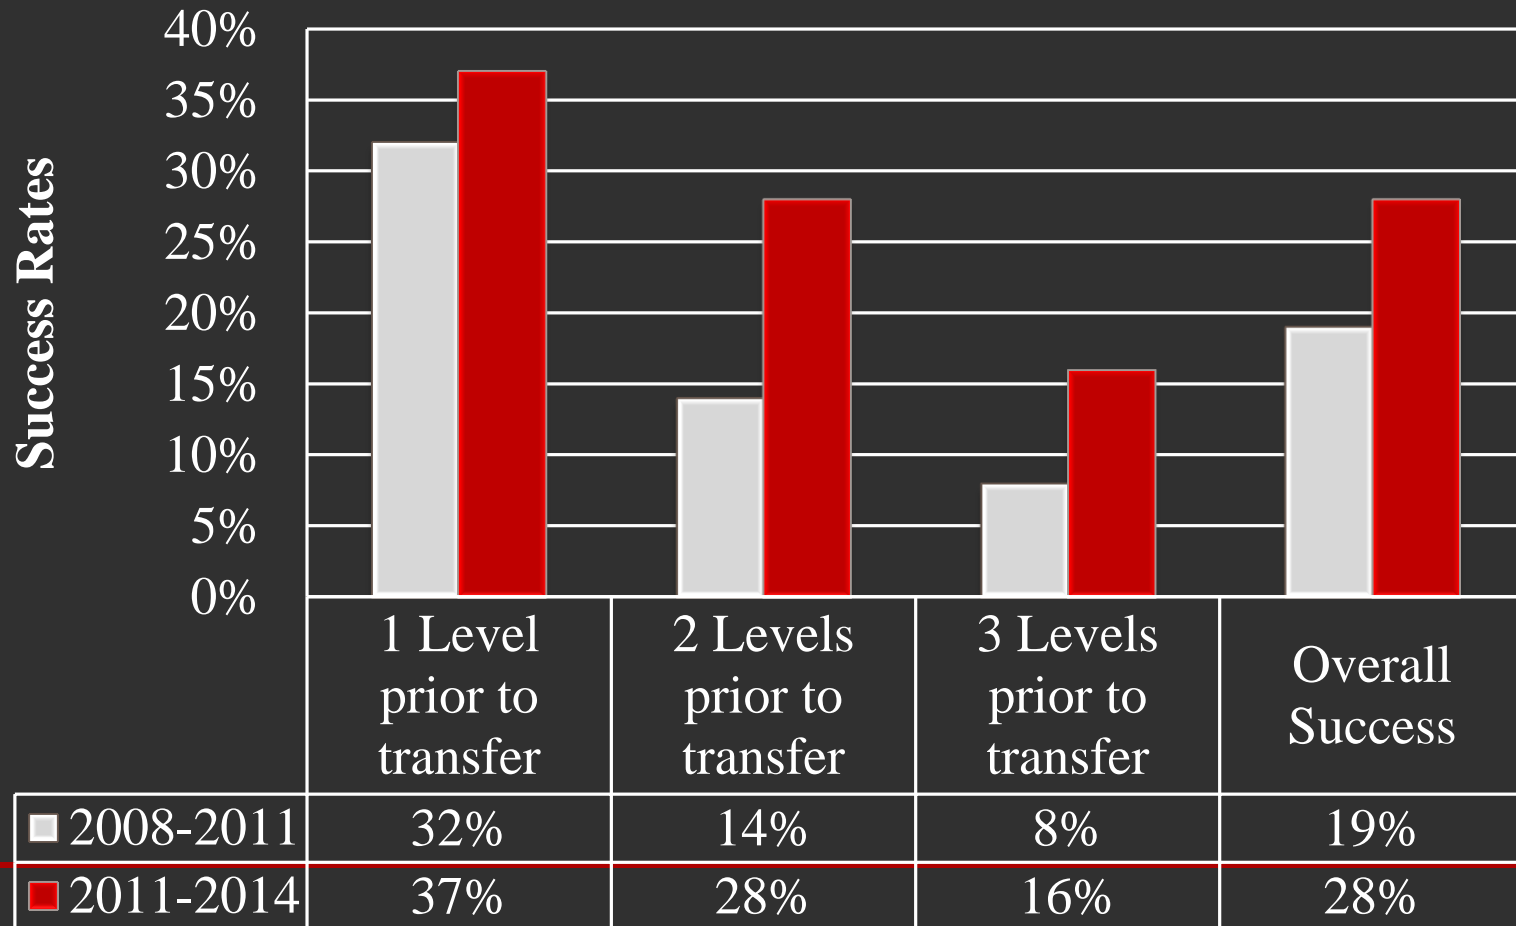

- **Math Remedial** completion rates have improved 2.4% for this cohort in the last 5 years
- That is tremendous!!
- But it is still almost 6% below the state average

- **English Remedial** completion rate is basically flat for this cohort (later you will see the 3 year cohorts have GREATLY improved)
- It is still 15.5% below statewide averages

- **ESL** completion rates are increasing AND above state averages

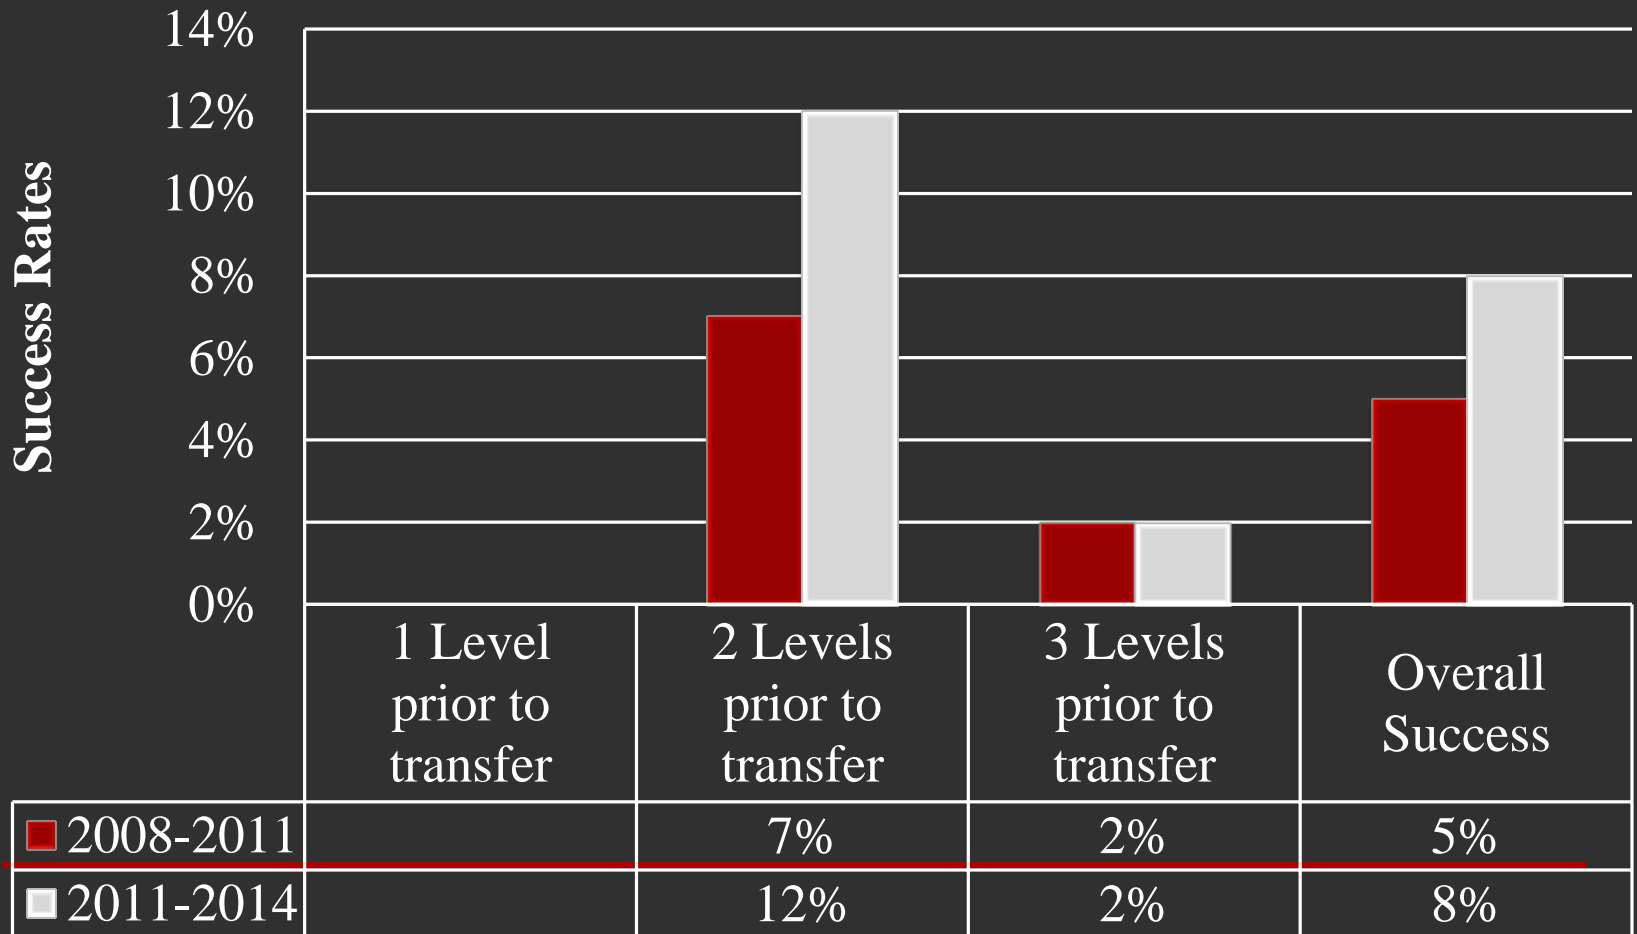

BC three year cohort differences

English Success rates for 3 years comparing
2008-2011 cohort with 2011-2014

BC three year cohort differences

Math Success rates for 3 years comparing 2008-2011 cohort with 2011-2014

Tasty Tidbit – Fall 2015 Multiple Measure Placement

Math Success for all BC 2014-15 and 2014 cohort and 2015 cohort

■ BC 2014-15 all success ■ 2014 Cohort success ■ 2015 Cohort Success
