 - 28 students were awarded an Associate Degree for Transfer in Agriculture Business (“Graduates”)

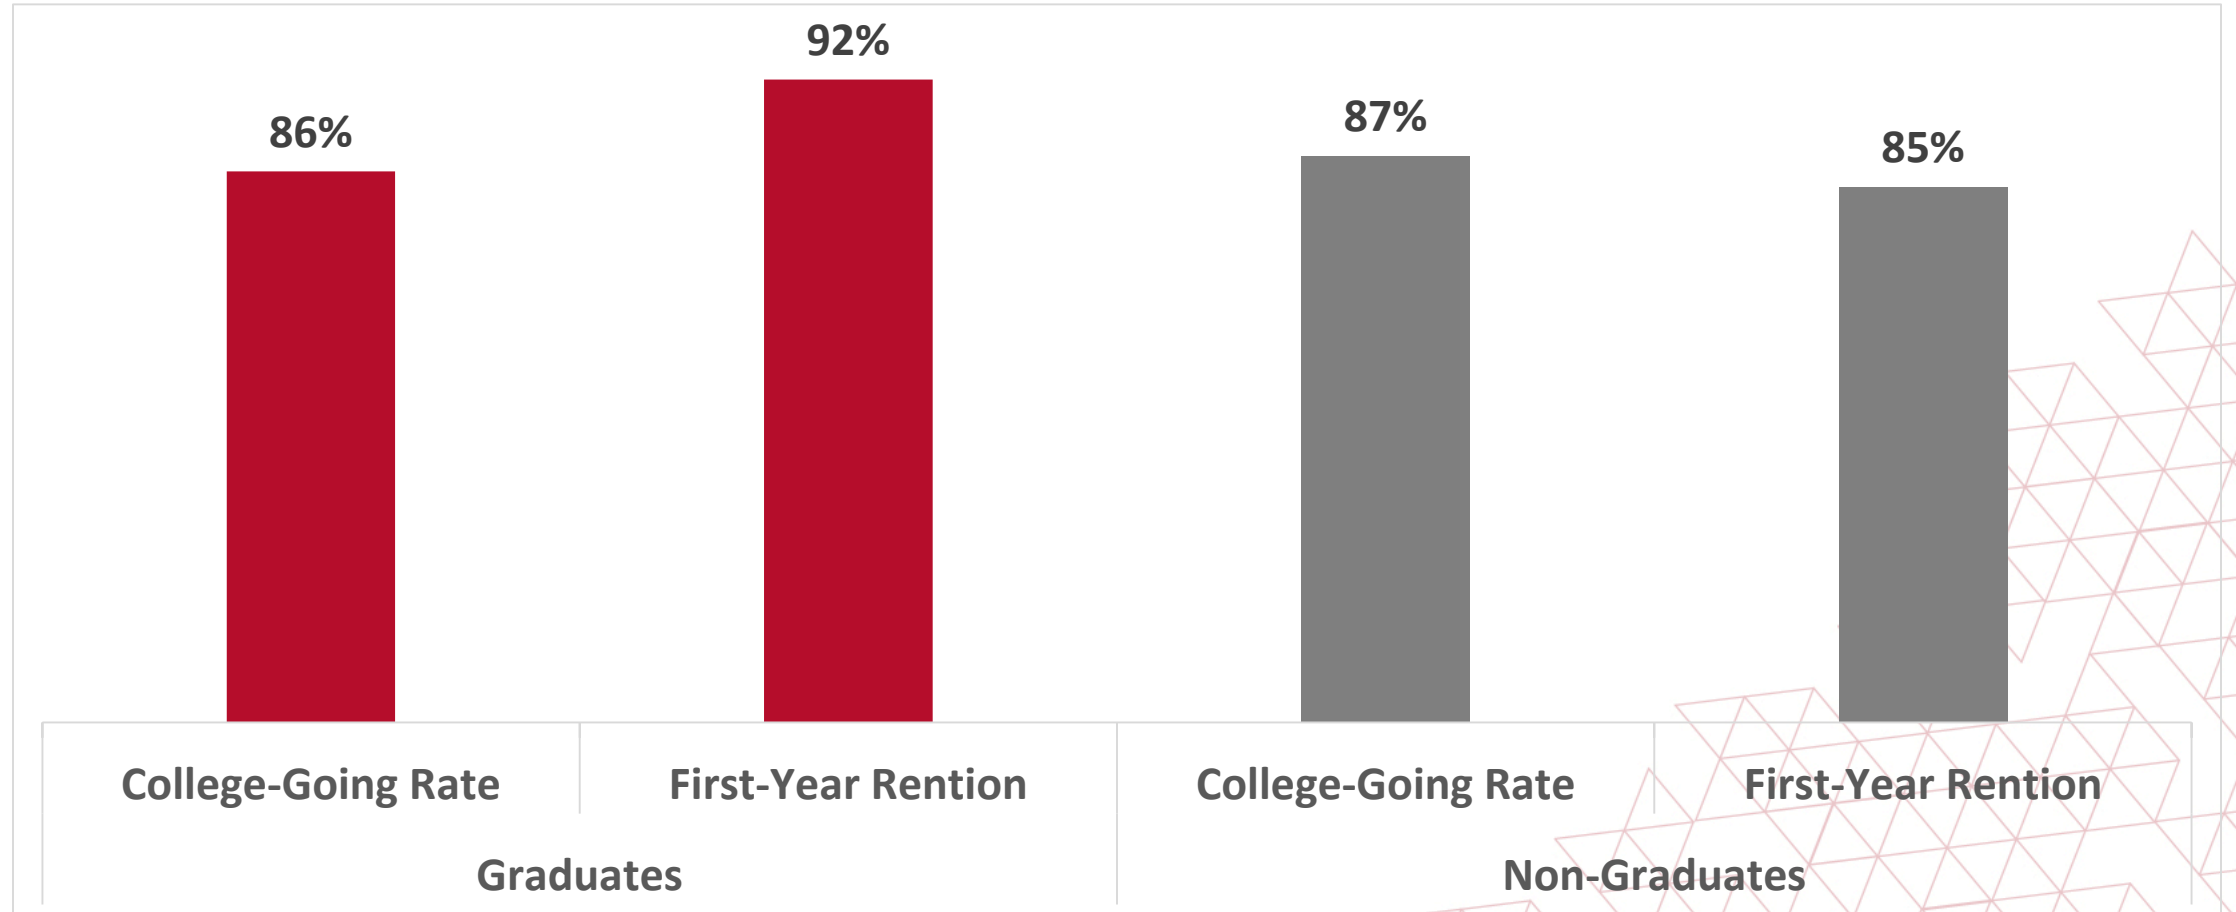

GRADUATES VS. NON-GRADUATES

Graduates (Earned AS-T in Spring 2018)	Non-Graduates (Did not earn AS-T in Spring 2018)
28 Students	47 Students
Earned an average of 63 units	Earned an average of 46 units
With an average GPA of 3.29	With an average GPA of 2.51
54% matriculated into college as a Junior	51% matriculated into college as a Sophomore or higher

COLLEGE MATRICULATION AFTER EARLY COLLEGE

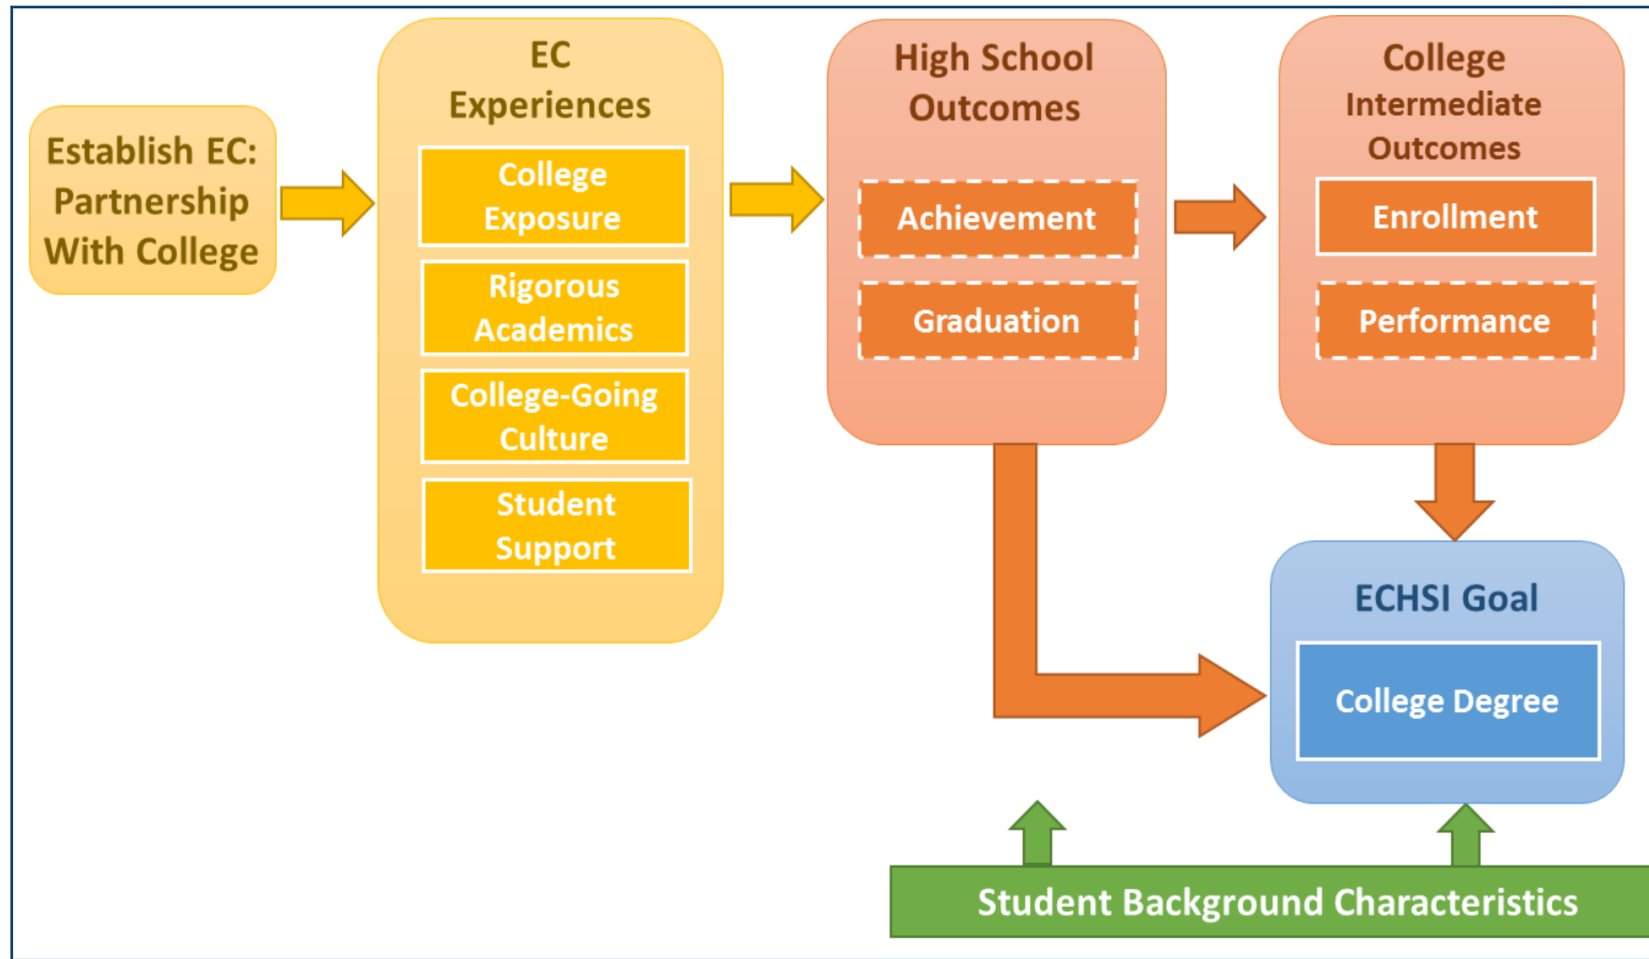

COLLEGE GOING RATE & RETENTION

ARE HIGH SCHOOL STUDENTS MATURE ENOUGH FOR COLLEGE WORK?

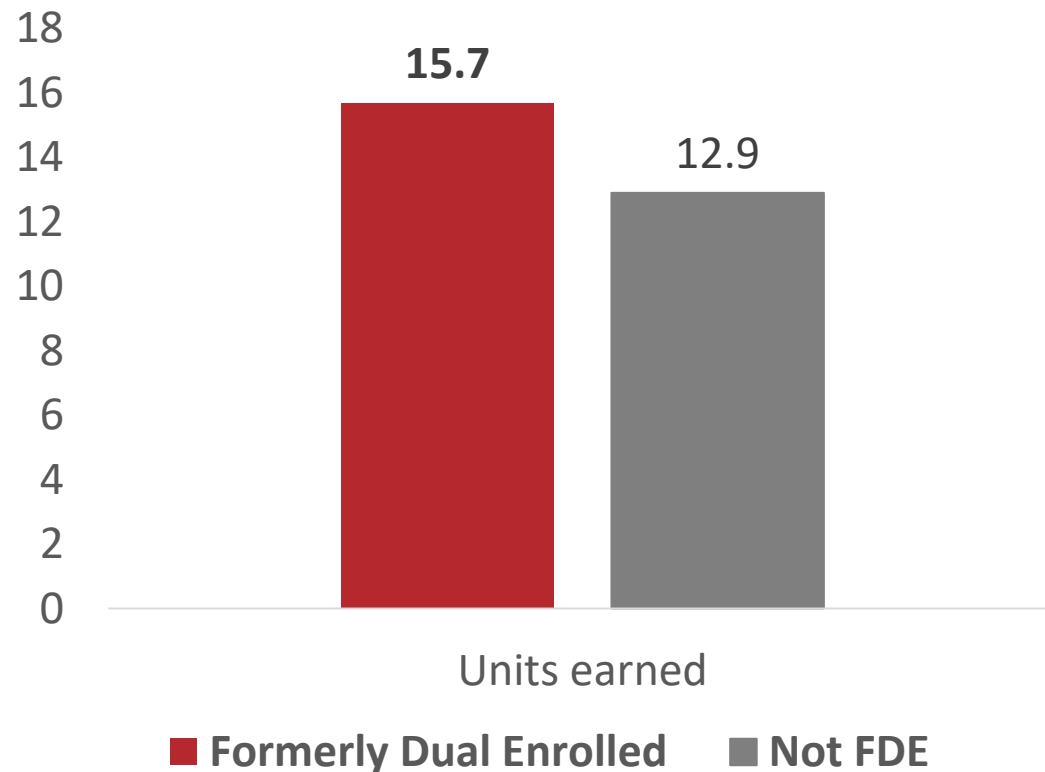

- If they get a passing grade in a college-level class, they are, *ipso facto*, capable of the work.
- Adolescents have brains that, while cognitively capable, are still developing the “executive functions” (e.g., time management, impulse control, self-awareness, meta-knowledge, planning)
- The high school setting provides structure and support to compensate for still developing executive functions.

EARLY COLLEGE LOGIC MODEL

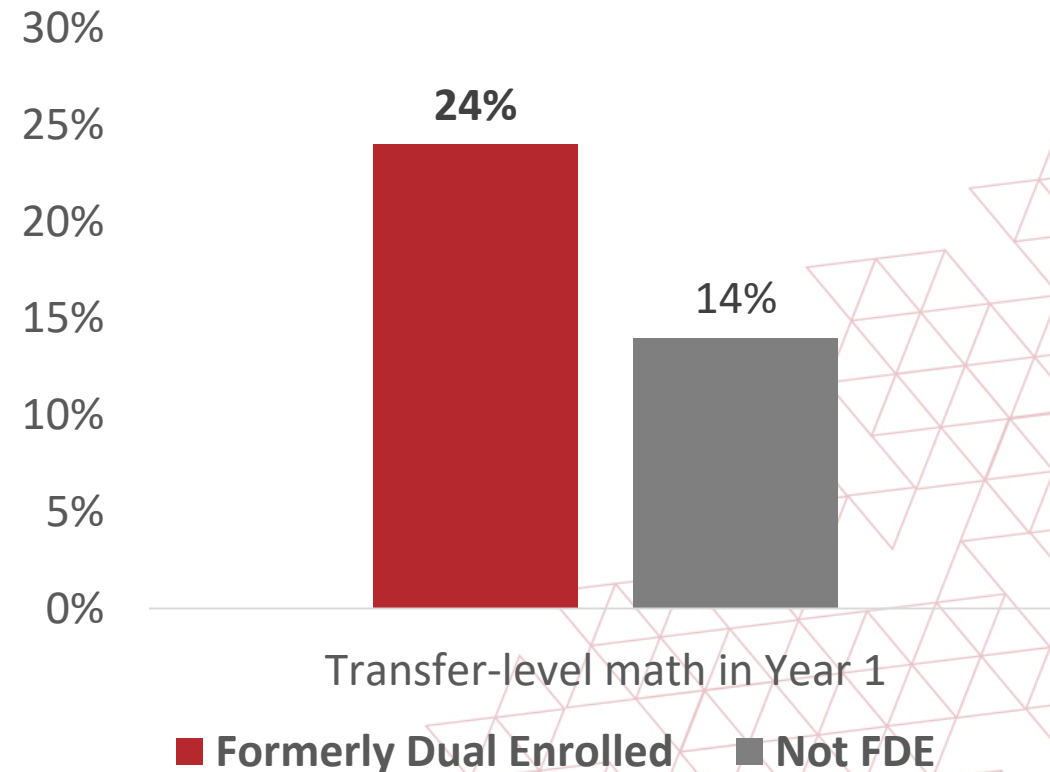

Impact of dual enrollment on first-time BC students with high school GPAs of 2.60+

Units Completed in First Year

Transfer-level Math in First Year

THANK YOU!
