Hi curriculum committee members,

Attached is the COR of HISB9 at Bakersfield College, the course [REDACTED] has submitted for approval in General Education critical thinking. I have also attached three comparable courses which [REDACTED] has provided to me for comparison, which are offered at other institutions.

I will be the first to say that I am noooooo curriculum expert. Before I make a decision on voting yes or no, I personally would like to have more information at hand. [REDACTED] document "3 Reasons & 3 Responses" outlines the case against HISB9, but if there are similar courses offered at other institutions I am inherently curious as to why the negative review.

Looking forward to a productive discussion on Thursday. Happy reading!
