11/17/2022	D, GE	OSRMB18	Environmental, Health, and Safety Law and Administration	This course provides an overview of federal, state and local regulatory landscape and concepts involved in environmental, health, and safety law and administration. The legal framework for California policy and law will be evaluated from the California constitution through the local ordinance level with analysis of the inter-agency relationships along federal, state, and local jurisdictions. The course includes critical thinking regarding the regulatory landscape along topical lines including air, water, employment, the environment, and hazardous materials, and how such policies effect industry, commerce, and the community at large.	Revision	3		T, DE, GE	Hybrid, Online, Interactive	Approved		BC GE D CSU GE D CSU US-3	Fall 2023
11/17/2022	E, GE	OSRMB26	Risk Management	This course provides an introduction to the decision-making framework of risk management. Students are guided through an understanding of what risk is and how it affects their lives in different stages from early childhood through adulthood. The course includes discussion of how insurance serves as a social good to aid individuals and the public in recovery after loss, spreading and financing risk throughout society. Practical and personalized examples and cases will be used to illustrate decision making, emphasizing the broader relationship between the individual and society. Students will understand how risk management reduces uncertainty and provides peace-of-mind, and social well-being. This course is focused on providing the analytical framework and principles for students to apply the information to manage their risk as individuals, heads of households, property owners, potential business owners, and members of society.	Revision	3		T, GE, DE	Hybrid, Online, Interactive	Approved		BC GE E1 CSU GE E	Fall 2023
