9/21/2023	H, GE	PHIL B8	Logic and Critical Thinking	This course focuses on the principles of deductive and inductive reasoning and their applications in making arguments, evaluating arguments, and writing analytical and argumentative essays, with an emphasis on the concept of and criteria for validity, symbolization, truth tables, syntax, semantics and natural deduction methods in sentential logic. The course also covers the uses of language, critical reading strategies, argument analysis, recognizing propaganda and stereotypes, clarifying ambiguity, meaning and definition, evaluating evidence, formal and informal fallacies. A total of 6,000 to 8,000 words will be required during the semester in a variety of written	New	3			Hybrid, Online, Interactive	Add	Add	add: BC GE B2 CSU GE A3, C2 IGETC 1B, 3B	Summer 2024	PHIL B8	Logic and Critical Thinking
9/21/2023	D, GE	AGRI B1	Agriculture, Environment and Society	Explores the sociology of agriculture by examining the relationship agriculture has with societies, their environments, and the economic and regulatory shifts that drive agricultural activities. Agricultural practices have transformed, and students will analyze agriculture's use of technology and the corresponding impact it has on society, the environment, the economy, and its impact on world food demands. Ethical issues in agriculture will also be explored. Students will investigate career options in the agriculture field and construct student educational plans. 5/4/2023	E	ELETB1A	Basic Electronics (DC)	An introduction to basic electricity and electronics, DC circuit types and circuit analysis, basic electronic components and electronic schematic diagram symbols, interpreting schematic diagrams, soldering skills, basic electronic test equipment use and measurement methods, and electromagnetic relays and relay circuits. (Note: Not open to students who have successfully completed ELET B1)	Revision	3		T, DE	Hybrid	Approved			Summer 2024	ELETB1A	Basic Electronics (DC)
5/4/2023	G	ELETB55A	Electric Motors - Controls	A basic study of electric motors, control systems, and electrical power, including: safety and personal protective equipment, electrical drawings and diagrams, motor control devices and circuits, electric motor types, three phase power and transformers, and power factor correction. Lab activities include simulation and wiring of control circuits, DC and AC motor types, motor performance characteristics, transformer configurations, and other industrial motion applications. (Note: Not open to students who have successfully completed ELET	Revision	3		DE	Hybrid				Summer 2024	ELETB55A	Electric Motors - Controls
5/4/2023	H, GE	SPANB35	Spanish for Heritage Speakers I	This course is designed for students whose native language is Spanish but need to improve their writing, grammar, vocabulary, and spelling skills. Strong emphasis will be placed on punctuation, accent rules, composition, grammar, vocabulary and the study of culture through contemporary Hispanic readings. The course is taught entirely in Spanish.  Note: Not open to students who have successfully completed SPAN B3. 5/4/2023	G, GE	SPANB36	Spanish for Heritage Speakers II	This course is a continuation of Spanish B35 and is designed for students whose native language is Spanish but need to improve their academic skills in the language. This course will focus on language challenges that intermediate-high level Spanish speakers have in orthography, inappropriate code switching between English and Spanish, and variations based on regional language differences. The writing and reading skills will be strengthened as well as vocabulary building through advanced cultural readings. The course is taught entirely in Spanish.  Note: Not open to students who have successfully completed SPAN	Revision	4		T, GE, DE	Hybrid, Online, Interactive, Other	Approved	Approved	BC C2 CSU C2 IGETC 6	Summer 2024	SPANB36	Spanish for Heritage Speakers II
5/4/2023	H, GE	SPANB4	Intermediate Spanish II	SPAN B4 is a continuation of SPAN B3. It continues to expand upon Hispanic culture and facilitate language acquisition through listening, speaking, reading and writing. Intensive grammar review in addition to more sophisticated vocabulary will increase students' accuracy with major communicative functions of the Spanish language. Continued exposure to readings from Spanish and Latin American authors help students to think critically and to make cross-cultural comparisons. This course is taught in Spanish.  Note: Not open to students who have taken the equivalent course of SPAN B36.
