

# Assessment Report to Curriculum

April 25, 2024 | Becka Zepeda, Faculty Co-Chair

- Assessment last met on April 19 and will have its final meeting of the academic year on May 3.
- Assessment has reviewed 100+ courses & programs in eLumen in the past month or so as part of the end of semester curriculum push. Mindy and I will be reviewing all remaining courses this semester.
- We have about 60% of assessment plans submitted to be posted on the assessment committee website for Fall 2024.
  - Here is the [list of assessment plans](#) and their status. Please look to see if your area is listed as one that we need and help us get those submitted. Thanks!
- It was suggested to have assessment committee meetings every other week rather than 1<sup>st</sup> and 3<sup>rd</sup> Fridays so that we can be more coordinated with curriculum and course reviews. However, the assessment committee declined and agreed to review courses weekly to prevent a backlog of courses next academic year.
- The assessment committee will be holding Drop-In hours via Zoom during finals week for anyone needing help with inputting assessment data. I will send an email out to faculty once those shifts/hours are finalized.
