

ANC Pathways – Report 1

1. Completion Coaching Community Meetings:

The plan is to have a meeting the second Friday of each month at 12:30. We may have to change that time during the month of November to accommodate other responsibilities of team members.

2. Progress/Work Plan for the Semester:

This year I have been involved with the Leading from the Middle conferences at CalPoly Pomona along with other community college participants. During our meetings we discussed the sustainability of guided pathways as well as continually building momentum campus-wide. As a result, the BC team created a work/communication piece for faculty, advisors, counselors, and deans to use as a guideline throughout the semester to ensure students have chosen a pathway and are meeting the momentum points. Grace Commiso is in the process of getting this approved so we can start sharing it.

The work plan for the ANC group is to focus on students currently enrolled in our courses to choose a pathway if they have not already done so and to connect with a counselor or advisor.

3. Review the Team Roster: I have reviewed the team roster and made corrections. This document is currently up-to-date.

4. Connect with assigned counselor: I have spent time talking with Aneesha Awrey about the ANC pathway and up-dating her on up-coming events.

5. Challenges: Meeting times are a challenge. Everyone has busy schedules making it difficult to meet with everyone at the same time. I have been having one-on-one conversations to make sure we are all up to date and moving in the same direction.
