ISIT - 10/5
3:30 pm, Lev. 40

Minutes: Bill Moseley

Campus Updates:

- Pay for print: New stations in open labs, as well as software updates are being rolled out.

TIPD Update:

> *Orientater.com* is available for all students to use. It can be used with or without a faculty account, although the faculty account enables a faculty member to see the results of the orientation, including detailed reports of student performance.

Canvas Updates :

> Bill Moseley and Andrea Thorson are gathering a group of faculty who are interested in trying out the Canvas CMS and providing feedback. Following the trial period, Bill will bring feedback to the ISIT committee. If we determine that moving forward is a good option, a limited pilot of Canvas using live classes/ students will be done in the Spring '16 semester.

Program Review : Committee Goals
(leads are in italics)

> *Goal 1 - Requests from Annual Update:*
> *Kristin*
> Todd
> Judy
> Richard
> Darren
> Cindy
>
> *Goal 2 - Canvas:*
> *Bill*
> Greg
> Matt
> Erin
>
> *Goal 3 - Technology Surveys:*
> *Kirk*
> Erin
> John
> Gabby

Goal 4 - Program Review Software:
Todd
Kristin
Leah

Student Technology Survey :

Suggestions for changes were given to Todd, who make changes and send out later this month.

Data will be returned late this month - We will try to return results with comparison to last year's results for November ISIT meeting.

BC_All Listserv Rules :

Amber Chiang visited to review:

- Currently Moderated (by Amber)
- Things that do not get approved: Messages that are more appropriate for just bc_classified or bc_faculty. Cat-related messages. Replies to the list.
- Amber sends only about half of the messages through.

Amber is recording suggestions for updates to the document discussing the bc_all rules, and will post where appropriate.

Committee voted to accept the changes as proposed.
